Jacobs, 1993-04-16 Revealing and unsettling interviews with over sixty real life individuals who claim they were abducted by aliens from the author of *The UFO Controversy in America* In *Secret Life* retired professor David M Jacobs takes us into the private world of those abducted by aliens letting them describe in their own words what it is like to be abducted Based on interviews with sixty individuals and more than 300 independently corroborated accounts *Secret Life* presents the most complete and accurate picture of alien abductions ever compiled Dr Jacobs takes the reader on a minute by minute journey through a typical abduction experience and describes in detail the bizarre physical mental and reproductive procedures that abductees claim have been administered by small alien beings Jacobs draws from these interviews a profoundly unsettling reason behind the abductions aliens are conducting a complex reproductive experiment involving the conception gestation or incubation of human and alien hybrid beings

Alien Abduction in the Cinema Paul Meehan, 2023-08-03 The alien abduction phenomenon is one of the enduring enigmas of our time While the reality of alien abductions is a hotly debated topic among UFO researchers scientists skeptics and true believers alike the phenomenon indisputably exists as an artifact of popular culture This book analyzes more than 75 films that draw their inspiration from allegedly fact based accounts of alien contact from 1951 s *The Man from Planet X* to *Contactee* in 2021 These films are examined in terms of both their cinematic qualities and their exploration of thematic elements derived from abduction reports Abduction motifs that appear in science fiction classics such as *The Day the Earth Stood Still* 2001 and *Close Encounters* are analyzed as well as those in lesser known films like *The Stranger Within* *Starship Invasions* *Dark Skies* and *Proximity* Special attention is given to movies based on the famed experiences of abductees Betty and Barney Hill Whitley Strieber and Travis Walton The book also addresses skeptical theories about the origins of the phenomenon in science fiction and examines an uncanny prescience that appears to anticipate these inexplicable occurrences

Alien Abductions Terry Matheson,1998-11-01 Extraterrestrials regularly abduct humans from Earth often performing bizarre surgeries and experiments on their subjects according to the popular and profitable nonfiction offered by major

publishing houses Books by John Fuller Budd Hopkins David Jacobs Whitley Strieber and others have helped shape contemporary belief in alien beings Science fiction scholar Terry Matheson reveals that the alien abduction literary genre has been a part of our history for decades but was never taken seriously until recent times He explains that traditional aliens were friendly or merely curious quite different from today's ugly fierce sinister creatures Abduction narratives and individual accounts have evolved and changed and the new aliens seem to symbolize growing fears that our technology is out of control Actual accounts from abduction victims and evidence collected Matheson stresses are often greatly enhanced by the bestselling authors who market the stories or are directly linked to well known fantasy and sci fi films released or broadcast prior to the alleged abductions Alien Abductions also draws a parallel to the way societal myths are made and that in these narratives we see a new myth in the making

The Alien IQ Test Clifford A. Pickover, 1997-05-01 Here is an irresistibly addictive book for anyone whose juices flow when presented with a baffling puzzle This fiendishly clever book pits readers' wits and deductive powers against a dizzying array of word problems questions riddles and graphic brainteasers all devised if you dare to believe by aliens who have arrived to assess our intelligence in such far flung areas of the human mind as abstract reasoning mathematics religion morality and humanity's concepts of beauty

Encyclopedic Sourcebook of Ufo Religions James R. Lewis, 2003-11 The macabre mass suicide by adherents of the Heaven's Gate Cult in 1997 was shocking and difficult to comprehend for most outsiders Their bizarre mindset which mixed New Age religion with belief in extraterrestrial visitation struck many as unique In fact as the contributors to this intriguing study show the belief in alien contact has had religious overtones since the first purported sighting of an unidentified flying object UFO in 1947 Moreover the religious dimensions of the UFO phenomenon may be the key to understanding the widespread appeal of this modern craze An expert in new religions Professor James Lewis has here brought together twenty insightful articles that cover the many variations of UFO based religions What the contributors demonstrate is that there are persistent and salient themes underlying the diversity of beliefs centered on the UFO phenomenon Harkening back to theosophy many groups have interpreted UFO sightings and alleged contacts as attempts

by alien ambassadors from a more advanced civilization to bring spiritual enlightenment to Earth where humanity is seen to be floundering in ignorance The extraterrestrial message is usually channeled through a charismatic human leader who then mobilizes a group around this New Age revelation The Encyclopedic Sourcebook of UFO Religions discusses the histories and beliefs of prominent UFO based sects looks at group dynamics and other sociological factors and presents selections from the unusual literature of the various groups This revealing and disturbing study shows that there is much more to the UFO phenomenon than simple curiosity about the possibility of life on other planets Now I Remember Charles R.
