Secrets From The Sacred Writings Reveal The Meaning Of Life:

The Hidden Mystery of the Bible Jack Ensign Addington, 1969-06-01 The Bible is the most important book ever published It has had more influence on history and affected more lives than any other book It divides nations and unites cultures Some people read the Bible for its literal meaning while others read it for the implied meaning To this day it continues to shape the heart soul and minds of individuals generations and societies worldwide How can this controversial and profound book be the answer to the problems of the world The first step is to look at how we perceive the Bible is it a history book or guide book For centuries people have viewed the Bible as a bridge to the past describing how humanity lived survived and died while in truth it is actually shining the Light of Truth onto our present day living to help us meet our personal and social problems New Thought writer Jack Ensign Addington believes that once you discover the hidden meaning of the Bible an infinite source of wisdom will be illuminated and revealed

The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy Volume II: Anthropogenesis Helena Petrovna Blavatsky, 2018-02-24 The last book in the monumental work of Theosophic thought This book focuses on gaining occult power in the formation of the humanity and the earth This group sought to learn the secrets of nature science and divinity in order to empower themselves to godhood and this book reveals their secrets as to how knowledge to do this can be attained It does not reveal what the ultimate saving knowledge is that can do this but it gives guidelines on how to start the journey for yourself

Church of God? or the Temples of Satan Robert A. Anderson, 2006-10 Here is a truly outstanding book about religious Gnosis called the Church of God or The Temples of Satan It criticises world religions for their lack of Spiritual Knowledge and perception and blames them for the Spiritual ignorance intolerance and hatred which it claims is the root of worldwide terrorism The book also accuses all religions of being nothing more than temples of Satanism and ignorance As far as Christianity is concerned the author builds a strong case indicating that its orthodox doctrines did not originate from Jesus but from St Paul and that Paul s behaviour demonstrated many symptoms of paranoid schizophrenia and narcissism These observations are supported by detailed study and quotations from various sources Early Christian scribes and theologians are also accused of editing corrupting mistranslating misinterpreting and even destroying many of the ancient texts Other world religions are also categorized in a similar way None according to the author represent the genuine teachings and revelations of their historic Master s or Prophet s Clear and persuasive evidence also indicates that Jesus was not the first and only Messiah but simply one in a long succession of such god men The book is not anti God far from it Indeed the author claims to have experienced Divine revelations himself He explains his own Spiritual experiences of meditation in great detail and

describes how they differ from what St Paul claims to have experienced In fact the central theme of the book explains how every seeker of Truth may actually achieve here and now true Enlightenment and Gnosis the very purpose of life The book also provides evidence that so called Christianity actually teaches in opposition to Jesus For instead of revealing personal Gnosis and Experience or Vision of God here and now as it claims Jesus did religions only offer theories and speculation a variety of erroneous theological beliefs empty promises futile exoteric rites and rituals and false hopes for the future nothing more than blind faith in words and hollow repetitious prayer It will be interesting to see what the world s religious organisations will have to say How they will answer the many questions facts and observations put forward The author says he expects that they will simply sweep it under the table as they usually do when confronted with difficult questions
