Pre Conquest Charter Bounds Of Devon And Cornwall:

Pre-conquest Charter-bounds of Devon and Cornwall Della Hooke,1994 Charters and Charter Scholarship in Britain and Ireland M. Flanagan,J. Green,2005-07-14 This book draws together a collection of essays looking at the ways in which charters and charter scholarship in different areas of Britain and Ireland highlighting comparisons and contrasts in charter production and use The book shows the crucial importance of charters as sources for understanding the history of royal administration and more broadly the perceptions and portrayals of kingly power as well as developments in written culture

Anglo-Saxon Myths: State and Church, 400-1066 Nicholas Brooks,1998-07-01 In this collection of essays Nicholas Brooks explores some of the earliest and most problematic sources both written and archaeological for early English history In his hands the structure and functions of Anglo Saxon origin stories and charters whether authentic or forged illuminate English political and social structures as well as ecclesiastical urban and rural landscapes Together with already published essays this work includes an account of the developments in the study of Anglo Saxon charters over the last 20 years

Anglo-Saxon Farms and Farming Debby Banham,Rosamond Faith,2014 Farming was the basis of the wealth that made England worth invading twice in the eleventh century while trade and manufacturing were insignificant by modern standards In *Anglo Saxon Farms and Farming* the authors employ a wide range of evidence to investigate how Anglo Saxon farmers produced the food and other agricultural products that sustained English economy society and culture before the Norman Conquest The first part of the volume draws on written and pictorial sources archaeology place names and the history of the English language to discover what crops and livestock people raised and what tools and techniques were used to produce them In part two using a series of landscape studies place names maps and the landscape itself the authors explore how these techniques might have been combined into working agricultural regimes in different parts of the country A picture emerges of an agriculture that changed from an essentially prehistoric state in the sub Roman period to what was recognisably the beginning of a tradition that only ended with the Second World War Anglo Saxon farming was not only sustainable but infinitely adaptable to different soils and geology and to a climate changing as unpredictably as it is today

Water and the Environment in the Anglo-Saxon World Maren Clegg Hyer,Della Hooke,2017 This study of the waterscapes of the Anglo Saxon world will assist serious students of the Anglo Saxon period in both perceiving and understanding both the textual imagery and the archaeology of water in Anglo Saxon England Place-names, Language and the Anglo-Saxon Landscape N. J. Higham,Martin J. Ryan,2011 The essays in this volume explore the richness of the interactions between the Anglo Saxons and their landscape how they understood described and exploited the environments of which they were a part Subjects explored include the history of the study of place names and the Anglo Saxon landscape *Landscape and Settlement in Britain, AD 400-1066* Della Hooke,Simon Burnell,1995 This book examines recent views on the emerging settlement patterns of early medieval Britain and their relation to land use drawing on both archaeological and documentary

sources Simon Esmonde Cleary takes the study from the later Romano British into the post Roman period Christopher Holdsworth examines the re emergence of Christianity in sixth century England the location of minsters and their role in the economy The problematic theme of continuity or dislocation recurs in a number of chapters and is closely investigated by Peter Rose and Ann Preston Jones in their chapter on Cornwall a region marginal to the main thrust of Anglo Saxon cultural influence Ethnicity as a factor for change is challenged and Colleen Batey looking at Northern Britain finds that archaeology fails to identify with any degree of certainty the specific Scandinavian house type in the uplands Della Hooke presents a more general summary of the period across England noting the evidence for the emerging landscape regions which were characterized by particular settlement types and field systems and in a case study of the Failand ridge in North Somerset James Bond sets the evidence within a much broader time scale revealing the gaps which still characterize our knowledge of the early medieval period *Devon & Cornwall Notes & Queries* John S. Amery,2002 Medieval Devon and Cornwall Dr. Sam Turner,2006 The countryside of Devon and Cornwall preserves an unusually rich legacy from its medieval past This book explores the different elements which go to make up this historic landscape the chapels crosses castles and mines the tinworks and strip fields and above all the intricately worked counterpane of hedgebanks and winding lanes Between AD 500 and 1700 a series of revolutions transformed the structure of the South West Peninsula s rural landscape The book tells the story of these changes and also explores how people experienced the landscape in which they lived how they came to imbue places with symbolic and cultural meaning Contributors include Ralph Fyfe on the pollen evidence of landscape change Sam Turner on the Christian landscape Peter Herring on both strip fields and Brown Willy Bodmin Moor O H Creighton and J P Freeman on castles Phil Newman on tin working and Lucy Franklin on folklore and imagined landscapes **The Languages of Early Medieval Charters** ,2020-11-23 This is the first major study of the interplay between Latin and Germanic vernaculars in early medieval records Building on previous work on the uses of the written word in the early Middle Ages which has dispelled the myth that this was an age of orality the contributions in this volume bring to the fore the crucial question of language choice in the documentary cultures of early medieval societies Specifically they examine the interactions between Latin and Germanic vernaculars in the Anglo Saxon and eastern Frankish worlds and in neighbouring areas The chapters are underpinned by an important comparative dimension on account of the two regions shared linguistic heritage and numerous cross Channel links Contributors are Stefan Esders Albert Fenton Robert Gallagher Wolfgang Haubrichs Charles Insley Kathryn A Lowe Rosamond McKitterick Rory Naismith Janet L Nelson Edward Roberts Annina Seiler Marco Stoffella Francesca Tinti Kate Wiles Bernhard Zeller See inside the book South-western Britain in the Early Middle Ages Susan M.
