Prehistoric Men:

Prehistoric Men Robert J. Braidwood, 2016-09-26 Like the writing of most professional archeologists mine has been confined to so called learned papers Good bad or indifferent these papers were in a jargon that only my colleagues and a few advanced students could understand Hence when I was asked to do this little book I soon found it extremely difficult to say what I meant in simple fashion The style is new to me but I hope the reader will not find it forced or pedantic at least I have done my very best to tell the story simply and clearly Many friends have aided in the preparation of the book The whimsical charm of Miss Susan Richert s illustrations add enormously to the spirit I wanted She gave freely of her own time on the drawings and in planning the book with me My colleagues at the University of Chicago especially Professor Wilton M Krogman now of the University of Pennsylvania and also Mrs Linda Braidwood Associate of the Oriental Institute and Professors Fay Cooper Cole and Sol Tax of the Department of Anthropology gave me counsel in matters bearing on their special fields and the Department of Anthropology bore some of the expense of the illustrations From Mrs Irma Hunter and Mr Arnold Maremont who are not archeologists at all and have only an intelligent layman s notion of archeology I had sound advice on how best to tell the story I am deeply indebted to all these friends While I was preparing the second edition I had the great fortune to be able to rework the third chapter with Professor Sherwood L Washburn now of the Department of Anthropology of the University of California and the fourth fifth and sixth chapters with Professor Hallam L Movius Jr of the Peabody Museum Harvard University The book has gained greatly in accuracy thereby In matters of dating Professor Movius and the indications of Professor W F Libby s Carbon 14 chronology project have both encouraged me to choose the lowest dates now current for the events of the Pleistocene Ice Age

Prehistoric Humans in Film and Television Michael Klossner, 2015-01-09 From the early days of the movies cavemen have been a popular subject for filmmakers not surprisingly since the birth of cinema occurred only a few decades after the earliest scientific studies of prehistoric man Filmmakers however were not constrained by the emerging science instead they most often took a comedic look at prehistory a trend that continued throughout the 20th century Prehistoric humans also populated adventure fantasy films with the original One Million B C 1940 leading the charge Documentaries were also made but it was not until the 1970s that accurate film accounts of prehistoric humans finally emerged This exhaustive work provides detailed accounts of 581 film and television productions that feature depictions of human prehistory Included are dramas and comedies set in human prehistory documentaries and films and television shows in which prehistoric people somehow exist in historical periods from the advent of civilization up to the present or in extraterrestrial settings Each entry includes full filmographic data including year of release running time production personnel cast information and format A description of each film provides background on the prehistoric elements Contemporary critical commentary is included for many of the works
