The Archaeology of Ancient Arizona J. Jefferson Reid, 1997-01-01 Carved from cliffs and canyons buried in desert rock and sand are pieces of the ancient past that beckon thousands of visitors every year to the American Southwest Whether Montezuma Castle or a chunk of pottery these traces of prehistory also bring archaeologists from all over the world and their work gives us fresh insight and information on an almost day to day basis Who hasn't dreamed of boarding a time machine for a trip into the past This book invites us to step into a Hohokam village with its sounds of barking dogs children's laughter and the ever present grinding of mano on metate to produce the daily bread Here too readers will marvel at the skills of Clovis elephant hunters and touch the lives of other ancestral people known as Mogollon Anasazi Sinagua and Salado Descriptions of long ago people are balanced with tales about the archaeologists who have devoted their lives to learning more about those who came before Trekking through the desert with the famed Emil Haury readers will stumble upon Ventana Cave his answer to a prayer With amateur archaeologist Richard Wetherill they will sense the peril of crossing the flooded San Juan River on the way to Chaco Canyon Others profiled in the book are A V Kidder Andrew Ellicott Douglass Julian Hayden Harold S Gladwin and many more names synonymous with the continuing saga of southwestern archaeology This book is an open invitation to general readers to join in solving the great archaeological puzzles of this part of the world Moreover it is the only up to date summary of a field advancing so rapidly that much of the material is new even to professional archaeologists Lively and fast paced the book will appeal to anyone who finds magic in a broken bowl or pueblo wall touched by human hands hundreds of years ago For all readers these pages offer a sense of adventure that you are there stir of excitement that comes only with making new discoveries about the distant past

Prehistory, Personality, and Place Jefferson Reid, Stephanie Whittlesey, 2010-02-15 When Emil Haury defined the ancient Mogollon in the 1930s as a culture distinct from their Ancestral Pueblo and Hohokam neighbors he triggered a major intellectual controversy in the history of southwestern archaeology centering on whether the Mogollon were truly a different culture or merely a backwoods variant of a better known people In this book archaeologists Jefferson Reid and Stephanie Whittlesey tell the story of the remarkable individuals who discovered the Mogollon culture fought to validate it and eventually resolved the controversy Reid and Whittlesey present the arguments and actions

surrounding the Mogollon discovery definition and debate Drawing on extensive interviews conducted with Haury before his death in 1992 they explore facets of the debate that scholars pursued at various times and places and how ultimately the New Archaeology shifted attention from the research questions of cultural affiliation and antiquity that had been at the heart of the controversy In gathering the facts and anecdotes surrounding the debate Reid and Whittlesey offer a compelling picture of an academician who was committed to understanding the unwritten past who believed wholeheartedly in the techniques of scientific archaeology and who used his influence to assist scholarship rather than to advance his own career Prehistory Personality and Place depicts a real archaeologist practicing real archaeology one that fashioned from potsherds and pit houses a true understanding of prehistoric peoples But more than the chronicle of a controversy it is a book about places and personalities the role of place in shaping archaeologists intellect and personalities as well as the unusual intersections of people and places that produced resolutions of some intractable problems in Southwest history
