## **Prelude To Civil War Nullification Cont:**

The History of Beaufort County, South Carolina Lawrence S. Rowland, Alexander Moore, George C. Rogers, Jr., 2020-06-22

The complex colorful history of South Carolina's southeastern corner In the first volume of *The History of Beaufort County South Carolina* three distinguished historians of the Palmetto State recount more than three centuries of Spanish and French exploration English and Huguenot agriculture and African slave labor as they trace the history of one of North America's oldest European settlements From the sixteenth century forays of the Spaniards to the invasion of Union forces in 1861 Lawrence S Rowland Alexander Moore and George C Rogers Jr chronicle the settlement and development of the geographical region comprised of what is now Beaufort Jasper Hampton and part of Allendale counties The authors describe the ill fated attempts of the Spanish and French to settle the Port Royal Sound area and the arrival of the British in 1663 which established the Beaufort District as the southern frontier of English North America They tell of the region's bloody Indian Wars participation in the American Revolution and golden age of prosperity and influence following the introduction of Sea Island cotton In charting the approach of civil war Rowland Moore and Rogers relate Beaufort District's decisive role in the Nullification Crisis and in the cultivation by some of the district's native sons of South Carolina's secessionist movement Of particular interest they profile the local African American or Gullah population a community that has become well known for the retention of its African cultural and linguistic heritage

*From Yeoman to Redneck in the South Carolina Upcountry, 1850-1915* Stephen A. West, 2008 In *From Yeoman to Redneck in the South Carolina Upcountry* Stephen A West revises understandings of the American South by offering a new perspective on two iconic figures in the region's social landscape Yeoman a term of praise for the small landowning farmer was commonly used during the antebellum era but ultimately eclipsed by redneck an epithet that emerged at the end of the nineteenth century In popular use each served less as a precise class label than as a means to celebrate or denigrate the moral and civic worth of broad groups of white men Viewing these richly evocative figures as ideological inventions rather than sociological realities West examines the divisions they obscured and the conflicts that gave them such force The setting for this impressively detailed study is the Upper Piedmont of South Carolina the sort of upcountry region typically associated with the white plain folk West shows how the yeoman ideal played a vital role in proslavery discourse before the Civil War but poorly captured the realities of life with important implications for how historians understand the politics of slavery and the drive for secession After the Civil War the South Carolina upcountry was convulsed by the economic transformations and political conflicts out of which the redneck was born West reinterprets key developments in the history of the New South such as the politics of lynching and the phenomenon of the Southern demagogue and uncovers the historical roots of a stereotype that continues to loom large in popular understandings of the American South Drawing together periods and topics often treated separately West combines economic social and political history in an original and compelling account

Holdstedt,2006 Since the ratification of the Constitution which established a union of states under a federal system of governance two questions have generated considerable debate What is the nature of the union What powers privileges duties and responsibilities does the Constitution grant to the national government and reserve for the states and the people During the more than 200 year history of the Constitution these issues have been debated time and again and have shaped and been shaped by the nation s political social and economic history This book examines the history and current issues of federalism

*The ^ARoad to Disunion* William W. Freehling,1991-12-05 In the first volume of his long awaited monumental study of the South s road to disunion eminent historian William Freehling offers a sweeping political and social history of the antebellum South from 1776 to 1854 All the dramatic events leading to secession are here and Freehling vividly recounts each crisis illuminating the many complex issues and sketching colorful portraits of the major figures involved But for all Freehling s brilliant insight into American antebellum politics Secessionists at Bay is at bottom the saga of the rich social tapestry of the prewar South Freehling brings the Old South back to life in all its color cruelty and diversity It is a memorable portrait certain to be a key analysis of this crucial era in American history      **African Americans in the Early Republic,**
