Einzelnen und Gruppen und die Gründung neuer Gesellschaften auf die interkontinentale Ausbreitung von Technologien Religionen oder politischen Ideen auf globale Kommunikationsnetze Handelsströme und Konsummuster auf Imperialismus Kolonialismus und großräumige Kriege *Trade, Politics and Society* Sushil Chaudhury, 2016-09-13 The essays in the volume deal with a broad range of factors integral to Indian history in the early modern era. They unfold many facets of the trade, politics and society of the country and offer new perspectives which will help dispel some long-held misconceptions. The first part of the book is concerned mainly with trade and commerce in Bengal while subsequent chapters provide an extensive survey of maritime trade in the Indian Ocean and the unique contribution of Armenian communities in Dhaka's commercial and social life of the eighteenth century. Die Kapitalisierung des Krieges Matthias Meinhardt, Markus Meumann, 2021 Die Beiträge des Bandes widmen sich der Verbindung von kriegesischem und unternehmerischem Handeln im Spätmittelalter und in der Frühen Neuzeit. Das Kriegsunternehmertum wird dabei als eine langlebige, Raum- und Epochen bergreifende Erscheinung betrachtet, die keineswegs nur ein Übergangsnomen im Rahmen einer linearen Entwicklung von mittelalterlichen Gefolgschaftsheeren zu frühstaatlichen Dienst- und Berufsheeren war. Untersucht wird, unter welchen politischen, sozialen, technologischen und ökonomischen Bedingungen es entstehen, sich etablieren und entfalten, sodann aber auch wieder an Bedeutung verlieren konnte, ohne freilich je ganz verschwunden zu sein. Als gemeinsame analytische Kategorie wird dafür der Begriff der Kapitalisierung in einem weiten Bedeutungsspektrum herangezogen.

Cultural Sociology of the Middle East, Asia, and Africa Andrea L. Stanton, 2012 In our age of globalization and multiculturalism it has never been more important to understand and appreciate all cultures across the world. The four volumes take a step forward in this endeavour by presenting concise information on those regions least well known to students across Europe: the Middle East, Asia and Africa. The volumes convey what daily life is like for people in these selected regions. Entries will aid readers in understanding the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions. Key Features: Topics are explored within historical context in three broad historical periods: prehistory to 1250, 1250 to 1920, and 1920 to the present. One volume each is devoted to the regions of the Middle East and Africa, and then one volume to East and Southeast Asia and a final volume to West Central and South Asia. The volumes include extensive use of photographs and maps to explain cultural and geographic content. Each volume has its own volume editor with expertise in that particular region. Key Themes: Arts, Culture and Science, People, Society and Dynasties, Religion and Law, Family and Daily Life, Conflicts and Wars, Politics and Government, Health and Education, Economy, Trade and Industry, National Geography and History.

Diaspora Entrepreneurial Networks Ina Baghdiantz McCabe, Gelina Harlaftis, Ioanna Pepelasis Minoglou, 2005. Diasporas' large-scale ethnic migrations have been a source of growing concern as we try to understand the nature of

community identity and nationalism Traditionally diaspora communities have been understood to be pariah communities and most work on diasporas has focused on specific groups such as the Jewish or African Diaspora This book is unique in arguing against traditional interpretations and in taking a comparative look at a range of diasporas including the Jewish Arab Chinese Japanese Indian Maltese Greek and Armenian diasporas Taking the past four centuries into consideration the authors examine diaspora trading networks across the globe on both a regional and international level They investigate the common patterns and practices in the enterprises of diaspora peoples and entrepreneurs The regions covered include Western Europe the Mediterranean South West Asia and the Indian Ocean and South East Asia Global networks of diaspora trading groups were crucial to international trade well before the twentieth century yet because they were not part of established institutions they have remained elusive to economists sociologists and historians Through an understanding of diaspora trading networks we learn not only about diaspora communities but also about the roots of the modern global economy
