Między demokratyzacją a racjonalizacją Olgierd Lissowski, 1990 **The Culture of Vengeance and the Fate of American Justice** Terry K. Aladjem, 2008-01-14 America is driven by vengeance in Terry Aladjem's provocative account a reactive public anger that is a threat to democratic justice itself From the return of the death penalty to the wars on terror and in Iraq Americans demand retribution and moral certainty they assert the rights of victims and make pronouncements against evil Yet for Aladjem this dangerously authoritarian turn has its origins in the tradition of liberal justice itself in theories of punishment that justify inflicting pain and in the punitive practices that result Exploring vengeance as the defining problem of our time Aladjem returns to the theories of Locke Hegel and Mill He engages the ancient Greeks Nietzsche Paine and Foucault to challenge liberal assumptions about punishment He interrogates American law capital punishment and images of justice in the media He envisions a democratic justice that is better able to contain its vengeance

Why Place Matters Wilfred M. McClay, Ted V. McAllister, 2014-02-25 Contemporary American society with its emphasis on mobility and economic progress all too often loses sight of the importance of a sense of place and community Appreciating place is essential for building the strong local communities that cultivate civic engagement public leadership and many of the other goods that contribute to a flourishing human life Do we in losing our places lose the crucial basis for healthy and resilient individual identity and for the cultivation of public virtues For one can't be a citizen without being a citizen of some place in particular one isn't a citizen of a motel And if these dangers are real and present ones are there ways that intelligent public policy can begin to address them constructively by means of reasonable and democratic innovations that are likely to attract wide public support Why Place Matters takes these concerns seriously and its contributors seek to discover how given the American people as they are and American economic and social life as it now exists and not as those things can be imagined to be in some utopian scheme we can find means of fostering a richer and more sustaining way of life The book is an anthology of essays exploring the contemporary problems of place and placelessness in American society The book includes contributions from distinguished scholars and writers such as poet Dana Gioia former chairman of the National Endowment for the Arts geographer Yi Fu Tuan urbanist Witold Rybczynski architect Philip Bess essayists Christine Rosen and Ari Schulman philosopher Roger Scruton transportation planner Gary Toth and historians Russell Jacoby and Joseph Amato

Making the World Safe Julia F. Irwin, 2013-03-28 In Making the World Safe historian Julia Irwin offers an insightful account of the American Red Cross from its founding in 1881 by Clara Barton to its rise as the government's official voluntary aid agency Equally important Irwin shows that the story of the Red Cross is simultaneously a story of how Americans first began to see foreign aid as a key element in their relations with the world As the American Century dawned more and more Americans saw the need to engage in world affairs and to make the world a safer place not by military action but through humanitarian aid It was a time perfectly suited for the rise of the ARC Irwin shows how the early and vigorous

support of William H Taft who was honorary president of the ARC even as he served as President of the United States gave the Red Cross invaluable connections with the federal government eventually making it the official agency to administer aid both at home and abroad Irwin describes how during World War I the ARC grew at an explosive rate and extended its relief work for European civilians into a humanitarian undertaking of massive proportions an effort that was also a major propaganda coup Irwin also shows how in the interwar years the ARC s mission meshed well with presidential diplomatic styles and how with the coming of World War II the ARC once again grew exponentially becoming a powerful part of government efforts to bring aid to war torn parts of the world The belief in the value of foreign aid remains a central pillar of U S foreign relations Making the World Safe reveals how this belief took hold in America and the role of the American Red Cross in promoting it Arts & Humanities Citation Index ,1994 **New Statesman Society** ,1991 **Bibliography of the History of Medicine** ,1979 **Subject Guide to Books in Print** ,1996 International Index to Periodicals ,1949 An author and subject index to publications in fields of anthropology archaeology and classical studies economics folklore geography history language and literature music philosophy political science religion and theology sociology and theatre arts **Israel & Palestine** ,1973 *Quill & Quire* ,2003 *American Book Publishing Record* R.R.
