Second Language Phonology:

Second Language Phonology John Archibald, 1998-01-01 This volume explores a variety of aspects of second language speech with special focus on contributions to the field made by primarily generative linguists looking at the sounds and sound systems of second language learners Second Language Phonology starts off with an overview of second language acquisition research in order to place the study of L2 speech in context This introductory chapter is followed by an outline of traditional approaches to investigating interlanguage phonology The third chapter consists of a discussion of relevant aspects of a learning theory that must be included in a treatment of how people learn sound systems The next three chapters focus on particular aspects of the mental representation of phonological competence segments syllables and stress respectively The penultimate chapter deals with issues related to the mechanisms that govern the changing of interlanguage grammars over time The volume ends with a summary of the issues raised throughout the text **Phonology and Second Language**

Acquisition Jette G. Hansen Edwards, Mary L. Zampini, 2008 This volume is a collection of 13 chapters each devoted to a particular issue that is crucial to our understanding of the way learners acquire learn and use an L2 sound system In addition it spans both theory and application in L2 phonology The book is divided into three parts with each section unified by broad thematic content Part I Theoretical Issues and Frameworks in L2 Phonology lays the groundwork for examining L2 phonological acquisition Part II Second Language Speech Perception and Production examines these two aspects of L2 speech in more detail Finally Part III Technology Training and Curriculum bridges the gap between theory and practice Each chapter examines theoretical frameworks major research findings both classic and recent methodological issues and choices for conducting research in a particular area of L2 phonology and major implications of the research findings for more general models of language acquisition and or pedagogy Interlanguage Phonology Georgette Ioup, Steven Weinberger, 1987

Foreign Accent Roy C. Major, 2001-03-01 Even though second language learners may master the grammar and vocabulary of the new languages they almost never achieve a native phonology accent Scholars and professionals dealing with second language learners would agree that this is one of the most persistent challenges they face Now for the first time Roy Major's Foreign Accent covers the exploding scholarship in this area and lays out the issues specifically for audiences in the second language acquisition and applied linguistics community The Age Factor. The Role of Age in Second Language Phonological Acquisition Isabel Richter, 2020-01-03 Seminar paper from the year 2018 in the subject English Language and Literature Studies Other Christian Albrechts University of Kiel language English abstract In the first section this research paper will present the role of age on L2 phonological acquisition by explaining the strong and weak version of the critical period hypothesis Furthermore it will give insight into important studies that either support or decline the opinion of age being a relevant factor for a native like acquisition of a second language phonology Subsequently in the last section it will be sketched to what extent other socio motivational circumstances among L2 learners can cause individual differences

throughout the acquisition of an L2 phonology Both sections critically examine the relevance of the L2 learner's age regarding the acquisition of an L2 phonology in order to find an answer to the question if age does affect the acquisition of a native like pronunciation As a last step the main points and findings of this research paper will be summarised in the conclusion

Second-language Speech Allan R. James, 1997 Language acquisition is a human endeavor par excellence As children all human beings learn to understand and speak at least one language their mother tongue It is a process that seems to take place without any obvious effort Second language learning particularly among adults causes more difficulty The purpose of this series is to compile a collection of high quality monographs on language acquisition The series serves the needs of everyone who wants to know more about the problem of language acquisition in general and or about language acquisition in specific contexts

A Theory of Second Language Acquisition Within the Framework of Natural Phonology Katarzyna Dziubalska-Kołaczyk,1990

Cross Currents in Second Language Acquisition and Linguistic Theory Thom Huebner, Charles A. Ferguson,1991-07-12 The term crosscurrent is defined as a current flowing counter to another This volume represents crosscurrents in second language acquisition and linguistic theory in several respects First although the main currents running between linguistics and second language acquisition have traditionally flowed from theory to application equally important contributions can be made in the other direction as well Second although there is a strong tendency in the field of linguistics to see theorists working within formal models of syntax SLA research can contribute to linguistic theory more broadly defined to include various functional as well as formal models of syntax theories of phonology variationist theories of sociolinguists etc These assumptions formed the basis for a conference held at Stanford University during the Linguistic Institute there in the summer of 1987 The conference was organized to update the relation between second language acquisition and linguistic theory This book contains a selection of mostly revised and updated papers of this conference and two newly written papers

Second Language Phonology Ellen Simon,2025-04-30 This Element deals with the interplay between phonology phonetics and acquisition It addresses the question of whether and how phonological representations are acquired in adult second language L2 learners in the face of phonetic variation inherent in speech Drawing from a large number of empirical studies on the acquisition of L2 speech sounds the Element outlines how phonetic

or phonological representations develop in L2 learners on the basis of input in immersion and instructed language learning contexts Taking in insights from sociophonetics and clinical linguistics the Element further discusses how accent variation impacts second language phonological acquisition and what clinical studies on individuals with atypical language development can tell us about the nature of phonological representations Finally new avenues in the field of L2 phonology are explored especially with regard to methodological challenges and opportunities related to the use of spontaneous speech and remote data collection
