**The Second World War, 1939-45** John Frederick Charles Fuller, 1969      *The Second World War* John F. C. Fuller, 1968      **World War II in Europe** David T. Zabecki, 2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Corps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps      *The Second World War 1939-45. A Strategic and Tactical History* J. F. C. Futer, 1962      **World War II Battles Reconsidered** Mark Thompson, 2025-04-03 Written by a former Harvard professor of decision science and game theory this book presents original insights on the strategies and tactics undertaken in four major battles of the Second World War That the fighting at Gazala in Libya in the late spring of 1942 constituted what has been called probably the most spectacular series of victories ever gained over a British army was in part due to its having violated the game theoretic Zero Sum Maxim of Napoleon Do not do what your enemy wishes you to The sensational British reversal of that disaster later that year at El Alamein in Egypt derived largely from heeding the millennia old military priority of command unity which has been analyzed and re endorsed by modern decision science This discipline has also judged the somewhat disappointing victory of the Allies at Falaise in France in August of 1944 to have resulted from excessive risk aversion possibly induced by three different types of fatigue One month later the Allied setback at Arnhem in the Netherlands called into question from the perspective of game theory the value of battlefield surprise These decisions approached from an expert perspective on game theory and presented with high quality maps are presented in this pioneering application of decision science to the battles of World War II      **The Second World War, 1939-45** Maj.-Gen J. F. C. Fuller, 2018-04-03 British General J F C Fuller is one of the greatest military thinkers of this century and has been called the Clausewitz of our time This book is Fuller s direct and clear eyed account of the most terrible war of the modern era When first published in

1948 it received notices such as these The strategic and tactical phases of the war are brilliantly expounded on that score the book stands as probably the best comprehensive work on the war to appear so far The New Yorker The narrative valuable as it is is not the most important part of General Fuller s book What really matters is the author s comments on the events he describes and these provide us with a clear statement of what he thinks not only about particular operations but about the conduct of the war as a whole The result is a hard hitting politico military pamphlet in which none of the punches are pulled The Spectator Fuller knows how to handle a narrative full of incident he is thoroughly at home in a subject in which he has kept himself up to date and he is one of the very rare original students of warfare whom this country has produced Times Literary Supplement Fuller s biographer Bryan Holden Reid has described The Second World War as an analysis of the breakdown as Fuller saw it of the vital relationship between grand strategy and grand tactics the end and the means Too often books on the Second World War detail the movements of formations about the battlefield and give space to strategical commentary without assessing the manner in which the war was actually fought On the tactical level The Second World War can still be read with profit Expertly combining detailed military history and analysis with Clausewitzian insights based on his own theories of warfare Fuller produced a modern military masterpiece in The Second World War *The Second World War, 1939-45* J. F. C. Fuller, 1993-03-22 Fuller s biographer Bryan Holden Reid has described The Second World War as an analysis of the breakdown as Fuller saw it of the vital relationship between grand strategy and grand tactics the end and the means Too often books on the Second world War detail the movements of formations about the battlefield and give space to strategical commentary without assessing the manner in which the war was actually fought On the tactical level The Second World War can still be read with profit Fuller himself characterized the book however as in part a least a psychological study of the folly of man Expertly combining detailed military history and analysis with Clausewitzian insights based on his own theories of warfare Fuller produced a modern military masterpiece in The Second World War **The Second World War, 1939-45 : a Strategical and Tactical History** John Frederick Charles Fuller, 1948 The Second World War, 1939-45 : a Strategical and Tactical History J. Offner, Theodore A. Wilson, 2000 In this collection senior scholars explore the transition from war to uneasy peace how and why the war ended as it did whether a different resolution was possible and if the ensuing Cold War was inevitable Das Ende auf dem Balkan 1944/45 Karl Hnilicka, 1970 Balkan Jugoslavien Serbien Kroatien Bosnien Makedonien Griechenland Tyske Balkanfelttog Cetnikker Albanien Bjergkrigsrelse Partisanerkrig Partisanbekmpelse Guerrillakrigsrelse Belgrad Tito Stalin General Felber Churchill von Geitner Himmler Hitler Keitel Schmidt Richberg E Neuhausen F Peter II Konge af Jugoslavien Nedec Milan Muller F W Mihailovic D Meyszner SS OBSO stfronten Lhr A von Weichs Wolff K Turner W Winter A Tyske Hrs Historie 1944 1945 Jugoslaviens Historie

**Why the Axis Lost** John Arquilla, 2020-03-13 The factors leading to the defeat of the Axis Powers in World War II have been debated for decades One prevalent view is that overwhelming Allied superiority in materials and manpower doomed the Axis Another holds that key strategic and tactical blunders lost the war from Hitler halting his panzers outside Dunkirk allowing more than 300 000 trapped Allied soldiers to escape to Admiral Yamamoto falling into the trap set by the U S Navy at Midway Providing a fresh perspective on the war this study challenges both views and offers an alternative explanation the Germans Japanese and Italians made poor design choices in ships planes tanks and information security before and during the war that forced them to fight with weapons and systems that were too soon outmatched by the Allies The unprecedented arms race of World War II posed a fundamental design challenge the Axis powers sometimes met but never mastered

**Disputed Decisions of World War II** Mark Thompson, 2020-01-17 A former Harvard professor of decision science and game theory draws on those disciplines in this review of controversial strategic and tactical decisions of World War II Allied leaders although outstanding in many ways sometimes botched what now is termed meta decision making or deciding how to decide Operation Jubilee a single division raid on Dieppe France in August 1942 for example illustrated the pitfalls of groupthink In the Allied invasion of North Africa three months later American and British leaders fell victim to the planning fallacy having unrealistically rosy expectations of an easy victory In Sicily in the summer of 1943 they violated the millennia old principle of command unity now re endorsed and elaborated on by modern theorists Had Allied strategists understood the game theory of bluffing in January 1944 they might well not have landed two plus divisions at Anzio in Italy
