The Second World War in the Twenty-First-Century Museum Stephan Jaeger, 2020-02-24 The Second World War is omnipresent in contemporary memory debates As the war fades from living memory this study is the first to systematically analyze how Second World War museums allow prototypical visitors to comprehend and experience the past It analyzes twelve permanent exhibitions in Europe and North America including the Bundeswehr Military History Museum in Dresden the Museum of the Second World War in Gdańsk the House of European History in Brussels the Imperial War Museums in London and Manchester and the National WWII Museum in New Orleans in order to show how museums reflect and shape cultural memory as well as their cognitive ethical emotional and aesthetic potential and effects This includes a discussion of representations of events such as the Holocaust and air warfare In relation to narrative memory and experience the study develops the concept of experientiality on a sliding scale between mimetic and structural forms which provides a new textual spatial method for reading exhibitions and understanding the experiences of historical individuals and collectives It is supplemented by concepts like transnational memory empathy and encouraging critical thinking through difficult knowledge

The Story of World War II Henry Steele Commager, Donald L. Miller, 2010-05-11 Drawing on previously unpublished eyewitness accounts prizewinning historian Donald L. Miller has written what critics are calling one of the most powerful accounts of warfare ever published Here are the horror and heroism of World War II in the words of the men who fought it the journalists who covered it and the civilians who were caught in its fury Miller gives us an up close deeply personal view of a war that was more savagely fought and whose outcome was in greater doubt than readers might imagine This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative Miller covers the entire war on land at sea and in the air and provides new coverage of the brutal island fighting in the Pacific the bomber war over Europe the liberation of the

death camps and the contributions of African Americans and other minorities He concludes with a suspenseful never before told story of the atomic bombing of Nagasaki based on interviews with the men who flew the mission that ended the war
