Second Slump A Marxist Analysis Of Recession In The Seventies:

The Second Slump Ernest Mandel, 1980 **Marxism and Historical Practice (Vol. II)** Bryan D. Palmer, 2015-09-01

The two volumes of *Marxism and Historical Practice* bring together a wide range of essays written by one of the major Marxist historians of the last fifty years. Collected in Volume II, *Interventions and Appreciations*, are articles and reviews capturing the breadth of Palmer's interests as a radical historian. Cultural forms and representational productions are analysed, political readings of historiography and pioneering historical practice provided. Themes as diverse as the analytic and political contributions of Eric Hobsbawm and E. P. Thompson, the conflicted legacies of American Trotskyism and the representation of class politics in Scorsese's *Gangs of New York* are covered. *The Impact of Recession* Alan R. Townsend, 2024-09-18

Rich industrialised countries entered the 1980s with unemployment higher than before the Second World War. Britain experienced the impact of recession more immediately and sharply: over one million factory jobs were lost. Originally published in 1983 and now reissued with a new Preface by the author, this book points to the industries, corporations and places in which job losses occurred between 1976 and 1981. *The Impact of Recession* opens with an examination of national trends which includes the post-war rise and fall of manufacturing employment and the fashionable concept of de-industrialisation. It considers the possible and actual roles of leading industrial corporations in distributing decline to different areas. The effects of the crisis on individual regions is examined in detail and the author emphasizes that it is not only the traditional areas of recession such as the North East that were affected but also the manufacturing centres of the Midlands and the normally prosperous South East. Alternative explanations of the distribution of employment are examined and the adequacy of previous explanations of unequal growth and decline are questioned. The book also looks at the extent to which New Towns have suffered in the crisis and whether the well-established consensus about the merits of regional planning has been broken down by the recession. *Against the Crisis* Ståle Holgersen, 2024-11-26

If crisis defines our era, we need a coherent socialist policy in response. Ståle Holgersen delves into today's economic and ecological crises to demonstrate that they are not exceptions to an otherwise functioning system but integral to its operation. It is naive to see these upheavals as opportunities for reform or revolution. They are the bedrock of the status quo. Fortunately, the vicious circle sustaining capitalism is not founded on an iron law. Our historical mission in the face of the climate crisis is to create a historical exception to the rule. It is time for ecosocialism against crisis. **Ernest Mandel** Jan Willem Stutje, 2020-05-05

Ernest Mandel (1923-1995) was one of the most prominent anti-Stalinist Marxist intellectuals of his time. A political theorist and economist, his worldview was shaped by experiences in the Second World War as an underground political activist in Occupied Belgium and during his subsequent internment in a Nazi prison camp. Mandel's faith in human nature and in the working classes survived Nazi oppression and the murder of much of his family in the concentration camps. He retained his connection to his Jewish roots throughout his life but believed that security and liberation for the Jewish people was best.

achieved through world revolution and universal emancipation rather than nationalism A brilliant orator in several languages Mandel was an indefatigable revolutionary militant and a key leader in the Fourth International and he had an enormous impact on the thought and practice of the 1968 generation His writings range from innovative economic and political theory to a study of the Second World War and have been published in over forty languages His last major work *Late Capitalism* had an influence that reached from the social sciences into the humanities Biographer Jan Willem Stutje the first writer with access to Mandel's archives has interviewed many of the leading figures in the story and unearthed a wealth of new material detailing Mandel's arrest by the Nazis and his role in Latin American guerrilla warfare He recounts Mandel's interactions with both scholars Sartre Ernst Bloch Perry Anderson and comrades in arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man's sometimes tragic private life *America after Empire* Berch Berberoglu, 2022-11-09 After the end of America's longest 20 year war in Afghanistan and Iraq that cost more than 6 trillion and nearly half a million lives what does the future hold for America and the American people in the 21st century In this timely and important book Berch Berberoglu provides an eye opening account of the history of the American Empire from its inception to the present with prospects for its future Examining the worldwide expansion of the American Empire over the course of its turbulent history in great detail Berberoglu assesses America's imperial legacy in a sober way highlighting its failure to come to terms with the enormous cost of this adventure in imperial overreach But Berberoglu sees light at the end of the long dark tunnel when the American people will awaken and lead the way to a new America after empire in the coming decades of the 21st century **Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur**, 1981
