Secret Doctrine:

The Secret Doctrine H.P. Blavatsky, Michael Gomes, 2009-07-23 Madame Blavatsky's Victorian era masterpiece is now scaled down to its essentials providing the most readable accessible experience ever of one of history's seminal occult works. The Secret Doctrine Helena Petrovna Blavatsky's masterwork on the origin and evolution of the universe and humanity itself is arguably the most famous and perhaps the most influential occult book ever written. Published since 1888 only in expensive two volume editions of some 1 400 pages it has long eluded the grasp of modern readers until now. This single volume edition abridged and annotated by historian and Theosophical scholar Michael Gomes places the ideas of The Secret Doctrine within reach of all who are curious. In particular Gomes provides a critical sounding of the book's famous stanzas on the genesis of life and the cosmos mysterious passages that Blavatsky said originated from a primeval source and which form the heart of The Secret Doctrine. Gomes scrupulously scales down the book's key writings on symbolism to their essentials and offers notes and a glossary to illuminate arcane references. His historical and literary introduction casts new light on some of the book's sources and on the career of its brilliant and elusive author one of the most intriguing personages of the nineteenth century. At once compact and representative of the work as a whole this new edition of The Secret Doctrine brings unprecedented accessibility to the key esoteric classic of the modern era. Helena Blavatsky, 2022-11-13 In The Secret Doctrine Helena Blavatsky presents a profound exploration of the universal truths underlying religion philosophy and science encapsulated in her meticulously woven narrative across three comprehensive volumes. This work employs a distinctive blend of esoteric language and analytical reasoning drawing upon an eclectic range of sources including Eastern spirituality Western mysticism and the natural sciences. Written during the late 19th century the book aims to reveal the metaphysical framework of existence introducing concepts such as cosmic evolution and the unity of all life while challenging the prevailing materialistic worldview of her time. Helena Blavatsky a co founder of the Theosophical Society was deeply influenced by her studies in Eastern philosophies and occult traditions. Her travels in India and encounters with yogic practices and spiritual teachings profoundly shaped her worldview. Blavatsky's intent in writing The Secret Doctrine arose from her mission to disseminate these esoteric teachings bridging the gap between science and spirituality and appealing to an increasingly skeptical society. This essential text is recommended for those seeking an intellectual awakening or a deeper understanding of spiritual philosophies. Blavatsky's intricate ideas encourage readers to contemplate the interconnectedness of all life and prompt an exploration of their own spiritual paths making The Secret Doctrine a hallmark of esoteric literature that remains relevant and thought provoking today. The Secret Doctrine: Cosmogony Helena Petrovna Blavatsky, 1893 Epistemology After Protagoras Mi-Kyoung Lee, 2005 Table of contents **The Secret Doctrine: The Synthesis of Science, Religion, and Philosophy (Complete)** Helena Petrovna Blavatsky, 2020-09-28 Since the appearance of Theosophical literature in England it has become customary to call its teachings Esoteric Buddhism And having become a habit as an old proverb based on daily experience has it Error runs down an inclined plane while Truth has to laboriously climb its way up hill Old truisms are often the wisest The human mind can hardly remain entirely free from bias and decisive opinions are often formed before a thorough examination of a subject from all its aspects has been made This is said with reference to the prevailing double mistake a of limiting Theosophy to Buddhism and b of confounding the tenets of the religious philosophy preached by Gautama the Buddha with the doctrines broadly outlined in Esoteric Buddhism Any thing more erroneous than this could hardly be imagined It has

enabled our enemies to find an effective weapon against Theosophy because as an eminent P li scholar very pointedly expressed it there was in the volume named neither Esotericism nor Buddhism The esoteric truths presented in Mr Sinnett s work ceased to be esoteric from the moment they were made public nor did the book contain the religion of Buddha but simply a few tenets from a hitherto hidden teaching which are now explained and supplemented by many more in the present volumes And even the latter though giving out many fundamental tenets from the Secret Doctrine of the East raise but a small corner of the dark veil For no one not even the greatest living Adept would be permitted to or could even if he would give out promiscuously to a mocking unbelieving world that which has been so effectually concealed from it for long ons and ages Esoteric Buddhism was an excellent work with a very unfortunate title though it meant no more than does the title of this work The Secret Doctrine It proved unfortunate because people are always in the habit of judging things by their appearance rather than by their meaning and because the error has now become so universal that even most of the Fellows of the Theosophical Society have fallen victims to the same misconception From the first however protests were raised by Brahmans and others against the title and in justice to myself I must add that Esoteric Buddhism was presented to me as a completed volume and that I was entirely unaware of the manner in which the author intended to spell the word Budh ism

second root had more physical bodies and lived in Hyperborea The third root race the first to be truly human is said to have existed on the lost continent of Lemuria and the fourth root race is said to have developed in Atlantis According to Blavatsky the fifth root race is approximately one million years old overlapping the fourth root race and the very first beginnings of the fifth root race were approximately in the middle of the fourth root race citation needed The real line of evolution differs from the Darwinian and the two systems are irreconcilable according to Blavatsky except when the latter is divorced from the dogma of Natural Selection She explained that by Man the divine Monad is meant and not the thinking Entity much less his physical body Occultism rejects the idea that Nature developed man from the ape or even from an ancestor common to both but traces on the contrary some of the most anthropoid species to the Third Race man In other words the ancestor of the present anthropoid animal the ape is the direct production of the yet mindless Man who desecrated his human dignity by putting himself physically on the level of an animal
