## **Secret Selves A Novel:**

**The Self in the Cell** Sean C. Grass, 2014-01-27 Michel Foucault's writing about the Panopticon in *Discipline and Punish* has dominated discussions of the prison and the novel and recent literary criticism draws heavily from Foucauldian ideas about surveillance to analyze metaphorical forms of confinement, policing, detection and public scrutiny and censure. But real Victorian prisons and the novels that portray them have few similarities to the Panopticon. Sean Grass provides a necessary alternative to Foucault by tracing the cultural history of the Victorian prison and pointing to the tangible relations between Victorian confinement and the narrative production of the self. *The Self in the Cell* examines the ways in which separate confinement prisons with their demand for autobiographical production helped to provide an impetus and a model that guided novelists' explorations of the private self in Victorian fiction.

**Private Moments, Secret Selves** Jeffrey A. Kottler, 1991-06 *Secrecy and Disclosure in Victorian Fiction* Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods? What is the function of secrets in Victorian fiction and in the society depicted? How does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered? These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria's coronation to the century's end. May argues that the works of writers such as Charlotte Brontë, William Makepeace Thackeray, Mary Elizabeth Braddon, Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information. She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity: one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye. May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure. May's theories of secrecy and disclosure are informed by the work of twentieth-century social scientists. She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity: the presentation of the self in everyday life and his revelation that performance always involves disguise; hence secrecy. May's study offers convincing evidence that secrecy and duplicity, in contrast to the Victorian period's emphasis on honesty and earnestness, emerged in response to the social pressures of class, gender, monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian.

The coming race* Edward Bulwer Lytton, Baron Lytton, 1897 *Secret Selves* Stephen Prickett, 2021-08-26 Who are we and how do we define our inner selves? In his last work Professor Stephen Prickett presents a literary and cultural exploration of our inner selves.

and how we have created and written about them from the Old Testament to social media What he finds is that although our secret inner sense of self what we feel makes us distinctively us seems a natural and permanent part of being human it is in fact surprisingly new Whilst confessional religious writings from Augustine to Jane Austen or even diaries of 20th century Holocaust victims have explored inwards as part of a path to self discovery our inner space has expanded beyond any possible personal experience This development has enhanced our capacity not merely to write about what we have never seen but even to create fantasies and impossible fictions around them Yet our secret selves can also be a source of terror The fringes of our inner worlds are often porous ill defined and susceptible to frightening forms of external control Mystics and poets from Dante to John Henry Newman or Gerard Manley Hopkins sought God in their secret spaces not least because they feared the abyss beneath From the origin of human consciousness through modern history and into the future Secret Selves uses literature to consider the profound possibilities and ramifications of our evolving ideas of self
