Secret City:

Being Human in Digital Cities Myria Georgiou, 2023-11-28 How is life in digital cities changing what it means to be human In this perceptive book Myria Georgiou sets out to investigate the new configuration of social order that is taking shape in today's cities Although routed through extractive datafication compulsive connectivity and regulatory AI technologies this digital order nonetheless displaces technocentrism and instead promotes new visions of humanism all in the name of freedom diversity and sustainability But the digital order emerges in the midst of neoliberal instability and crises resulting in a plurality of contrasting responses to securing digitally mediated human progress While corporate media and state actors mobilize such positive sociotechnical imaginaries to promise digitally mediated human progress urban citizens and social movements propose alternative pathways to autonomy and dignity through and sometimes against digital technologies Investigating the dynamic workings of technology and power from a transnational and comparative perspective this book reveals the contradictory claims and struggles for the future of digital cities and their humanity In doing so it will enrich understandings of digital urbanism critical data studies and critical humanist studies The Politics of Media Scarcity Greg Elmer, Stephen J. Neville, 2024-01-31 This book questions the predominance of media abundance as a guiding concept for contemporary mediated politics The authors argue that media abundance is not a universal condition and that certain individuals communities and even nations can more accurately be referred to as media scarce where access to media technologies and content is limited highly controlled or surveilled Through case studies that focus on guerilla militants incarcerated Indigenous people and cold war era infrastructure including Soviet closed or secret cities and Canadian nuclear bunkers the book's chapters interrogate how the once media scarce later speak to and can be heard by the predominant abundant media culture Drawing from several art projects and diverse cultural sites the book highlights how media scarce communities negotiate and otherwise narrate their place in the world their past experiences and lives and escape from subjugation To better understand media scarce politics the book asks how and when communities become by accident or force by choice or necessity media scarce This innovative and insightful text will appeal to students and scholars around the world working in the areas of media and politics art and politics visual studies surveillance studies and communication studies **A Critic at Large in the Multiverse**, New York Magazine, 1987-05-04 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea European Television Crime Drama and Beyond Kim Toft Hansen, Steven Peacock, Sue Turnbull, 2018-12-05 This book is the first to focus on the role of European television crime drama on the international market As a genre the television crime drama has enjoyed a long and successful career routinely

serving as a prism from which to observe the local national and even transnational issues that are prevalent in society This extensive volume explores a wide range of countries from the US to European countries such as Spain Italy the Scandinavian countries Germany England and Wales in order to reveal the very currencies that are at work in the global production and circulation of the TV crime drama The chapters all written by leading television and crime fiction scholars provide readings of crime dramas such as the Swedish Danish The Bridge the Welsh Hinterland the Spanish Under Suspicion the Italian Gomorrah the German Tatort and the Turkish Cinayet By examining both European texts and the European ness of various international dramas this book ultimately demonstrates that transnationalism is at the very core of TV crime drama in Europe and beyond

KGB Peter Deriabin,Tennent H. Bagley,1990 Mikhail Gorbachev was hailed as the herald of a new era of international cooperation This uncompromising book argues that Gorbachev might not have been as revolutionary as we would like to believe The authors show how Soviet foreign policy in fact stemmed from the leaders struggle for internal power and therefore how the KGB s operations abroad were afforded the highest priority The true function of the organization was to keep the Party in power whatever the human cost It is estimated that while the population of the USSR only doubled between 1905 and 1990 the repressive apparatus of the KGB increased eightfold Whereas other books on the KGB emphasize its subversive role in foreign countries this book uniquely written from an insider s viewpoint focuses on its dominant role within the Soviet system In the most comprehensive and authoritative survey of the activities of the KGB to date the authors look back to its founding in 1917 and also put recent events in perspective Most importantly they provide sound guidelines by which Western observers can distinguish fundamental from superficial change Adapted from jacket
