

Searchlight on forgotten conflict

HISTORY

MIKE SCANLON

LEST We Forget has a strange meaning these days in both Britain and Australia. First, in a remote part of Russia, there are 1-8 foot graves of Australian war veterans.

They lie not in hallowed ground, but in unmarked circumstances, buried only a few feet down under a modern, if contaminated, scrapyard in Obozerskaya.

Only one body has ever been recovered and identified. It is of Victoria Cross winner Sergeant Sam Pearce who died on August 29, 1919. His body has lain for six years in a plastic bag inside a blue plastic storage crate in a morgue in the Russian city of Archangel.

But there are no plans by governments to repatriate the body of Pearce, or any others, to Australia despite family pleas and a major RSL campaign now under way. The move has been labelled a national disgrace by Pearce supporters.

So, how did this situation arise? In popular opinion, the 1930s Korean War is probably our nation's most forgotten conflict. Another contender, however, is the time Britain invaded Soviet Russia with a force of 30,000 men, including between 120 and about 150 Australian volunteer soldiers. A few of these Aussies may have been from the Hunter. Later they usually never spoke about their experiences, even to their families.

Never heard of the Allied military intervention in Russia in 1918? Little wonder as it's been slanted into the sidelines of history for most of us. Officially it was called the North Russia Expeditionary Force (NREF) and this failed British-controlled military campaign's aim was to defeat Russian Bolsheviks (later called Soviets) after the Russian revolution of 1917. The Allied relief force actually began in the late stages of the First World War (1914-1918) and continued long after the Armistice.

The first Allied troops to set foot in Russia were a handful of Royal Marines landing at Murmansk Harbour in March 1918 to seize tons of war stores given to them Imperial Russia to fight the Germany enemy. Russia by then appeared to be on the verge of disintegration.

By mid-1917, more than two million Russian soldiers were dead and five million wounded fighting the Germans. The radical Russian revolutionaries known as 'Reds' or Bolsheviks then took over and withdrew Russia from WWI much to the dismay of the Allies. The offshoot of Russia's involvement in this Russian civil war was small, but they were all volunteers, hence the current complications over their fate.

After WWI ended in late 1918, large numbers of bored Australian soldiers were in camps in England awaiting a troopship home. Following British advertisements for a Russian relief force, and lured by better pay rates, scores of Aussies signed up for further duty. A condition for their extra war service was that they had to be discharged from the Australian Army first, then re-enlist in the British Army to fight against the Bolsheviks.

AUSTRALIA'S LOST HEROES

Anzacs in the Russian Civil War 1919

The soldiers removed any Australian insignia on their ADP uniforms but were allowed to retain their distinctive slouch hats. The North Russia relief force was finally evacuated in October 1919.

Overall, the total number of forgotten British and Empire forces killed in all units during the Russian Civil War of 1918-20 has been estimated at 900. The total number of recorded British and Empire casualties who died in North Russia alone from March 1918 to October 1919 is estimated at 502.

America was also a reluctant participant in military intervention in North Russia. The troops were known as the 'Polar Bears'. Although committed to drag Russia back into the war, the US didn't support the restoration of the former Imperial or Tsarist government. But at least two US presidents were later blissfully ignorant of its soldiers ever being on Russian soil. Both Richard Nixon and Ronald Reagan made erroneous

claims that Americans and Russians had never fought each other.

Australian military historian Damien Wright has written a gripping book on the saga titled *Australia's Lost Heroes - Anzacs in the Russian Civil War 1919* revealing the little-known story of our Diggers fighting the Red Army in Russia. His excellent book also includes his odyssey 90 years later to locate the lost body of VC hero Sam Pearce, and the treachery and mystery of the Allied so-called comrades, the White Russians.

After researching for years, Wright said he finally reached the damp forest location of the Entsa battlefield, about 170kms south of Archangel, in 2005. It was here that Sgt Pearce died in 1919 after successfully attacking a Red Army log blockhouse hurling grenades. He was only 22. (His body was later taken to a distant war cemetery, now long neglected).

Guided by a Russian battlefield archae-

ologist, author Wright says he and others felt privileged to be the first Australians to visit the site in 100 years. The battle scene was virtually untouched with the forest floor littered with rusty barbed wire, visible trench lines and a trail of British .303 rifle cartridges found with a metal detector.

Meanwhile, Hinkelader believes at least three North Russian Anzacs may have settled in the Hunter, some seeking work at Koori Koori's Richmond Main Colliery. They never spoke about their bizarre Russian adventure. Northern Coalfields mining leader the late Jim Cornerford, once told the Herald he'd known one of them, but they remained tight-lipped. Cornerford also remembered seeing a rare souvenir from the largely forgotten foreign conflict. It was a "Bolshevik machine gun pistol" on display at the temporary Australian war museum in Sydney's Belmore Park before the museum shifted permanently to Canberra.

One person who was in North Russia unusually early, and spoke about his war experience back in 1978, was the late John Kelly, a former sergeant, then aged 85, of Randwick, near Mudgee. He was one of nine original Australians who volunteered for a secret mission in 1918. The Diggers thought they were off to fight Germans in Russia, but instead went into combat with the Bolsheviks.

Kelly's group, codenamed Kloppe, fought in the vanguard of about 600 Allied troops in the Murmansk and Archangel regions from June 1918. He spent a year in northern Russia and remembered the campaign as a tragedy, marked by failures, treachery and hardships.

"We were all of the opinion that the revolution was a civil thing. None of us had any heart for it. I can assure you," Kelly said in a last interview.

Written by highly respected authorities, this book discusses the literature on all aspects of the war, making it an excellent starting point for anyone seeking guidance to the immense and often daunting body of World War I literature. The struggle mobilized manpower from home troops from the colonies abroad and in most countries women as well as men. Governments increasingly intervened in everyday life. New weapons and organizational structures were developed. Yet the history of the war and the reasons it started and spread so rapidly were vastly more complex than the players realized. Written by highly respected authorities, this book discusses the literature on all aspects of the war. Ensuing chapters consider the literature on each of the participating countries. The broader subjects of the war at sea and the war in the air are also covered. Daniel Beaver's final chapter discusses the mobilization of industry and the new military technology. examines the rapid development and expansion of agencies and governmental power to monitor and control the homefront in Britain and France during World War I. It documents the rapid shift in focus from the feared but unimportant threat of German espionage toward homegrown radicals. The book utilizes a vast array of documents generated during the war by top level government committees, intelligence agencies and police services as it demonstrates the emergence of mass domestic surveillance. Detailing how events and ideas in one country impacted the other, the book argues that Britain and France developed remarkably similar intelligence agencies and policies due to their shared experiences before, during and after the war. This book will appeal to students and scholars alike though its moderate length and chronological approach make it accessible to a wider audience. Additionally, it will fit a number of courses including studies of the state, intelligence studies and modern European history courses.

Spion für Papst, Kaiser und British Empire Ulrich L. Lehner, 2025-04-07. Tief in den Archiven des Vatikans ist eine Akte über einen Vorfall verborgen, der den Vatikan wie kein anderer erschütterte: die Gerlach Affäre. Sie erzählt nur einen kleinen Teil der Lebensgeschichte des Deutschen aus bayerischem Hause namens Rudolf von Gerlach, den der niederländische Geheimdienst Deutschlands besten und gefährlichsten Spion nannte. Sein abenteuerliches Leben faszinierte Geheimdienste und Journalisten. Einige behaupteten, er habe Papst Pius X und seinen Staatssekretär vergiftet, damit sein Mentor auf den Papstthron gelangen konnte. Andere porträtierten ihn als heimlichen Liebhaber des Wiener Kardinals und von Papst Benedikt XV selbst, oder auch als eiskalten Spion des deutschen Kaisers. Selbst als Verbindungsmann für den britischen Geheimdienst MI6 wird er im Dritten Reich aktiv, wenig davon ist bislang bekannt. Ulrich L. Lehner macht mit diesem Band die filmreife Biografie des Rudolf von Gerlachs zugänglich.
