## **Sherpas Reflections On Change In Himal:**

Sherpas James F. Fisher, 1990 James Fisher combines the strengths of technical anthropology literary memoir and striking photography in this telling study of rapid social change in Himalayan Nepal The author first visited the Sherpas of Nepal when he accompanied Sir Edmund Hilary on the Himalayan Schoolhouse Expedition of 1964 Returning to the Everest region several times during the 1970s and 1980s he discovered that the construction of the schools had far less impact than one of the by products of their building a short take off and landing airstrip By reducing the time it took to travel between Kathmandu and the Everest region from a hike of several days to a 45 minute flight the airstrip made a rapid increase in tourism possible Beginning with his impressions of Sherpa society in pre tourist days Fisher traces the trajectory of contemporary Sherpa society reeling under the impact of modern education and mass tourism and assesses the Sherpa s concerns for their future and how they believe these problems should be and eventually will be resolved Sherpas: Reflections on Change in Himalayan Nepal Fisher James F, 1990 **The Sherpas of the Himalayas** Manis Kumar Raha, Palash Chandra Coomar, Sudip Bhui, 2016-01-01 The present book is a detailed first of its kind study of the Sherpas inhabiting Darjeeling District of West Bengal and South District of Sikkim This ethnographic study among the Sherpas of these two areas was undertaken by the authors because firstly the Sherpas here have very interesting culture and secondly these people here are very little known All detailed studies so far published are on the Sherpas of Nepal So people know about the Sherpas of Nepal but not about them living in Darjeeling and Sikkim From this detailed study the readers of this book particularly those who are interested about the people of the Himalayas and of North East India will get a comprehensive idea about the life and activities of these inhabitants of the Himalayas Moreover in this book a comparison between their society and culture and those of their congeners in Nepal has also been made As a result the readers will get a complete life sketch of these people from this book This book will also help in formulating and undertaking development programmes among them and also in the areas they live *Himalayan Perceptions: Environmental Change and the Well-being of Mountain Peoples [ENHANCED] (Hardcover)* Jack D. Ives, 2006 **Managing and Adapting to Global Change in Tourism Places** Alan A. Lew, 2017-10-02 Today more than ever communities need to develop resilience strategies to adapt to the varied and often unpredictable forces of global change The focus of this collection of articles from *Tourism Geographies* is on global change in tourism places Global change incorporates social and economic globalization which is arguably the most important process to have shaped the development of modern tourism since the nineteenth century and climate change which is likely to be the most significant factor influencing human behavior and livelihood in the coming decades The organization of these articles reflects a traditional geography approach which starts with an emphasis the physical geography foundations of the human condition especially through the issue of climate change This is then broadened by a series of insightful comparative studies of how tourism communities react adapt and relate to their changing

natural and social conditions This collection of papers addresses major issues and adaptive paths for tourism destinations as they face the challenges of our contemporary world This book was published as a special issue of *Tourism Geographies*

**Himalayan Architecture** Ronald M. Bernier, 1997 This broad treatment of architecture throughout the region of the Himalaya mountains is the first book of its kind The author has based this study on many years of research in Nepal Sikkim Bhutan Assam and the Darjeeling area of northeast India northern Pakistan and Himachal Pradesh in India's northwest These areas make up an artistic and to some degree a cultural unit It is unique and definable for its design qualities as well as its use of materials Dramatic and lofty structures rise as towering palaces and as temples dedicated to Hindu and Buddhist ideals The impact of neighboring Tibet and India is often evident in the art but other influences are found as well The area has not been isolated as some studies suggest but was in fact always linked to the rest of Asia and to the West by means of the Silk Road at least since the second century B C This study progresses from east to west beginning in the foothills of India's Assam It is richly illustrated with photographs most of which are the author's or his wife's and many of the photographs are published here for the first time The archives of the Archaeological Survey of India and the Department of Archaeology of His Majesty's Government of Nepal are also used here [Routledge Handbook of Highland Asia](#) Jelle J.P.
