Sartres Existential Biographies:

Sartre's Existential Biographies Michael Scriven, 1983-12-15 **Autobiography and the Existential Self** Terry Keefe, Edmund Smyth, 1995 In recent years critical attention has become increasingly focused on autobiography The impact of this enquiry is not exclusively confined to comparative literature studies and literary theory and criticism but has also been extended to philosophy sociology feminist studies psychoanalysis social history and cultural studies **Sartres Baudelaire** Dieter Mettler, 1990 Existentialism and Excess: The Life and Times of Jean-Paul Sartre Gary Cox, 2016-09-08 Jean Paul Sartre is an undisputed giant of twentieth century philosophy His intellectual writings popularizing existentialism combined with his creative and artistic flair have made him a legend of French thought His tumultuous personal life so inextricably bound up with his philosophical thinking is a fascinating tale of love and lust drug abuse high profile fallings out and political and cultural rebellion This substantial and meticulously researched biography is accessible fast paced often amusing and at times deeply moving Existentialism and Excess covers all the main events of Sartre s remarkable seventy five year life from his early years as a precocious brat devouring his grandfather s library through his time as a brilliant student in Paris his wilderness years as a provincial teacher writer experimenting with mescaline his World War II adventures as a POW and member of the resistance his post war politicization his immense amphetamine fueled feats of writing productivity his harem of women his many travels and his final decline into blindness and old age Along the way there are countless intriguing anecdotes some amusing some tragic some controversial his loathing of crustaceans and his belief that he was being pursued by a giant lobster his escape from a POW camp the bombing of his apartment his influence on the May 1968 uprising and his many love affairs Cox deftly moves from these episodes to discussing his intellectual development his famous feuds with Aron Camus and Merleau Ponty his encounters with other giant figures of his day Roosevelt Hemingway Heidegger John Huston Mao Castro Che Guevara Khrushchev and Tito and above all his long complex and creative relationship with Simone de Beauvoir Existentialism and Excess also gives serious consideration to Sartre s ideas and many philosophical works novels stories plays and biographies revealing their intimate connection with his personal life Cox has written an entertaining thought provoking and compulsive book much like the man himself **Literarische Diskurse des Existentialismus** Helene Harth, 1986 With special reference to Sartre **Sartre and Psychoanalysis** Betty Cannon, 1991 Betty Cannon is the first to explore the implications of Sartrean philosophy for the Freudian psychoanalytic tradition Drawing upon Sartre s work as well as her own experiences as a practicing therapist she shows that Sartre was a fellow traveler who appreciated Freud s psychoanalytic achievements but rebelled against the determinism of his metatheory The mind Sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as Freud s work suggested Sartre advocated an existentialist psychoanalysis based on human freedom and the self s ability to reshape its own meaning and value Through the Sartrean approach Cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis

on relational needs By comparing Sartre with Freud and influential post Freudians like Melanie Klein Otto Kernber Margaret Mahler D W Winnicott Heinz Kohut Harry Stack Sullivan and Jacques Lacan she demonstrates why the Sartrean model transcends the limitations of traditional Freudian metatheory In the process she adds a new dimension to our understanding of Sartre and his place in twentieth century philosophy **Jean Paul Sartre** Joan Nordquist,1993 **International Philosophical Quarterly** ,1961 The Existentialist Marxism of Jean-Paul Sartre James Lawler,1976 The title of this book may be misleading if it leads one to expect a study of Sartre s writings that primarily stresses Sartre s own interpretation of Marxism There is certainly an attempt to explain Sartre s existentialist interpretation of Marxism and to provide a presentation which is as accurate as possible The title however is mean to suggest a question Is the combination of existentialism and Marxism a valid one from the point of view of Marxism Is existentialist Marxism a real unity or is it a false juxtaposition of antagonistic theories The title should perhaps be followed by a question mark And yet if this question is to be answered another question must be asked What is Marxism Does it have a definite reality or is Marxism something that only exists in the eye of the beholder The aim of this study is to answer both of these sets of questions Sartre, Les Mots Denis Boak,1987 Critical Essays on Jean-Paul Sartre Robert Wilcocks,1988 **Biography** ,2000 *Sartre* Traugott König,1988 *Existential Fiction* Catharine Savage Brosman,2000 Gale Study Guides to Great Literature is a unique reference line composed of three series Literary Masters Literary Masterpieces and Literary Topics Convenient comprehensive and targeted toward current coursework these guides place authors titles and topics into context for high school and college students as well as general researchers Each Literary Masters volume introduces a significant author covering basic biographical information The related Literary Masterpieces volume explores a major title from this author s works in detail Finally the Literary Topics volume places the author and work within a relevant literary movement or genre Flowers and Revolution Barbara Read,Ian Birchall,1997 **Illumination by Darkness** Bernard J. Bergen,1992 This book presents an original and innovative reading of Freud s thought based on a single premise Our century requires us to understand what Freud tells us about ourselves and the way we are bonded to the social world in his own terms rather than filtered through the screen of the revisionist history of psychoanalytic thought Refusing all revisionist judgments which deem Freud s work to be fragmented and lacking in narrative coherency because it does not end with a vision of human possibility this book follows the narrative movement of the instinctual doctrine which governs his work to an end which calls us not to love but interpret those visions of human possibility that seek to command the world This call is a call to take responsibility for preserving the world that we now know is in constant peril **Quinquereime** ,1985 **French Studies** ,1947 **A Critical Bibliography of French Literature** David Clark Cabeen,1994 Sartre's Philosophy and the Challenge of Education Hayim Gordon,Rivca Gordon,2001 This study draws on a wide range of Sartre s writings early and late both philosophical and literary to creat a Sartre inspired philosophy of education It highlights the need to give priority to

questioning rather than to passivity excellence rather than success the avoidance of a kind of objectivity that precludes making moral judgements and condemning evil
