Biesecker, John Louis Lucaites, 2009 *Rhetoric Materiality and Politics* explores the relationship between rhetoric's materiality and the social world in the late modern political context Taking as their point of departure a reprint of Michael Calvin McGee's 1982 call to reconceptualize rhetoric as the palpable experience of sociality the authors in this volume grapple anew with the role of communication practices in contemporary collective life Drawing upon the work of Michel Foucault Jacques Lacan and Jacques Derrida these twelve original essays supplement extend and challenge McGee's position collectively advocating on behalf of a shift in theoretical and critical attention from rhetorical materialism to rhetoric's materiality Book Jacket

Accelerating Customer Relationships Ronald S. Swift, 2001 Preface Corporations that achieve high customer retention and high customer profitability aim for The right product or service to the right customer at the right price at the right time through the right channel to satisfy the customer's need or desire Information Technology in the form of sophisticated databases fed by electronic commerce point of sale devices ATMs and other customer touch points is changing the roles of marketing and managing customers Information and knowledge bases abound and are being leveraged to drive new profitability and manage changing relationships with customers The creation of knowledge bases sometimes called data warehouses or Info Structures provides profitable opportunities for business managers to define and analyze their customers behavior to develop and better manage short and long term relationships Relationship Technology will become the new norm for the use of information and customer knowledge bases to forge more meaningful relationships This will be accomplished through advanced technology processes centered on the customers and channels as well as methodologies and software combined to affect the behaviors of organizations internally and their customers channels externally We are quickly moving from Information Technology to Relationship Technology The positive effect will be astounding and highly profitable for those that also foster CRM At the turn of the century merchants and bankers knew their customers they lived in the same neighborhoods and understood the individual shopping and banking needs of each of their customers They practiced the purest form of Customer Relationship Management CRM With mass merchandising and franchising customer relationships became distant As the new millennium begins companies are beginning to leverage IT to return to the CRM principles of the neighborhood store and bank The customer should be the primary focus for most organizations Yet customer information in a form suitable for marketing or management purposes either is not available or becomes available long after a market opportunity passes therefore CRM opportunities are lost Understanding customers today is accomplished by maintaining and acting on historical and very detailed data obtained from numerous computing and point of contact devices The data is merged enriched and transformed into meaningful information in a specialized database In a world of powerful computers personal software applications and easy to use analytical end user software tools managers have the power to segment and directly address marketing opportunities through well managed processes and marketing strategies This book is written for

business executives and managers interested in gaining advantage by using advanced customer information and marketing process techniques Managers charged with managing and enhancing relationships with their customers will find this book a profitable guide for many years Many of today's managers are also charged with cutting the cost of sales to increase profitability All managers need to identify and focus on those customers who are the most profitable while possibly withdrawing from supporting customers who are unprofitable The goal of this book is to help you identify actions to categorize and address your customers much more effectively through the use of information and technology define the benefits of knowing customers more intimately and show how you can use information to increase turnover revenues satisfaction and profitability The level of detailed information that companies can build about a single customer now enables them to market through knowledge based relationships By defining processes and providing activities this book will accelerate your CRM learning curve and provide an effective framework that will enable your organization to tap into the best practices and experiences of CRM driven companies in Chapter 14 In Chapter 6 you will have the opportunity to learn how to in less than 100 days start or advance your customer database or data warehouse environment This book also provides a wider managerial perspective on the implications of obtaining better information about the whole business The customer centric knowledge based info structure changes the way that companies do business and it is likely to alter the structure of the organization the way it is staffed and even how its management and employees behave Organizational changes affect the way the marketing department works and the way that it is perceived within the organization Effective communications with prospects customers alliance partners competitors the media and through individualized feedback mechanisms creates a whole new image for marketing and new opportunities for marketing successes Chapter 14 provides examples of companies that have transformed their marketing principles into CRM practices and are engaging more and more customers in long term satisfaction and higher per customer profitability In the title of this book and throughout its pages I have used the phrase Relationship Technologies to describe the increasingly sophisticated data warehousing and business intelligence technologies that are helping companies create lasting customer relationships therefore improving business performance I want to acknowledge that this phrase was created and protected by NCR Corporation and I use this trademark throughout this book with the company's permission Special thanks and credit for developing the Relationship Technologies concept goes to Dr Stephen Emmott of NCR's acclaimed Knowledge Lab in London As time marches on there is an ever increasing velocity with which we communicate interact position and involve our selves and our customers in relationships To increase your Return on Investment ROI the right information and relationship technologies are critical for effective Customer Relationship Management It is now possible to know who your customers are and who your best customers are stimulate what they buy or know what they won't buy time when and how they buy learn customers preferences and make them loyal customers define characteristics that make up a great profitable customer model channels

are best to address a customer's needs predict what they may or will buy in the future keep your best customers for many years This book features many companies using CRM decision support marketing databases and data warehousing techniques to achieve a positive ROI using customer centric knowledge bases Success begins with understanding the scope and processes involved in true CRM and then initiating appropriate actions to create and move forward into the future Walking the talk differentiates the perennial ongoing winners Reinvestment in success generates growth and opportunity Success is in our ability to learn from the past adopt new ideas and actions in the present and to challenge the future Respectfully Ronald S Swift Dallas Texas June 2000 **The History of Work** R.
