Saturn's Child:

Saturn Liz Greene, 2011-08-01 Have you ever experienced the repeated delays pressures and disappointment associated with Saturn's transits and cycles This classic astrology text revered by both beginning and professional astrologers alike offers a fresh perspective on how to handle the influence of this much maligned astrological symbol World famous astrologer and Jungian analyst Liz Greene brings her unique psychological approach to Saturn showing us how the frustrating experiences connected to this planet can be turned into opportunities for greater insight and meaning in our lives Saturn she says symbolizes a psychic process one that allows us to utilize the experience of pain for self discovery and greater understanding Greene traces the character of this most important planet through sign house aspect synastry and its role in mythology She offers a brilliant analysis of Saturn to reveal the face of the Initiator who for the price of our honesty offers us greater consciousness self understanding and eventually freedom This 35th anniversary edition includes a new foreword by leading astrologer and author Robert Hand

Newton the Alchemist William R. Newman, 2018-12-11 A book that finally demystifies Newton's experiments in alchemy When Isaac Newton's alchemical papers surfaced at a Sotheby's auction in 1936 the quantity and seeming incoherence of the manuscripts were shocking No longer the exemplar of Enlightenment rationality the legendary physicist suddenly became the last of the magicians Newton the Alchemist unlocks the secrets of Newton's alchemical quest providing a radically new understanding of the uncommon genius who probed nature at its deepest levels in pursuit of empirical knowledge In this evocative and superbly written book William Newman blends in depth analysis of newly available texts with laboratory replications of Newton's actual experiments in alchemy He does not justify Newton's alchemical research as part of a religious search for God in the physical world nor does he argue that Newton studied alchemy to learn about gravitational attraction Newman traces the evolution of Newton's alchemical ideas and practices over a span of more than three decades showing how they proved fruitful in diverse scientific fields A precise experimenter in the realm of chymistry Newton put the riddles of alchemy to the test in his lab He also used ideas drawn from the alchemical texts to great effect in his optical experimentation In his hands alchemy was a tool for attaining the material benefits associated with the philosopher's stone and an instrument for acquiring scientific knowledge of the most sophisticated kind Newton the Alchemist provides rare insights into a man who was neither Enlightenment rationalist nor irrational magus but rather an alchemist who sought through experiment and empiricism to alter nature at its very heart

Saturn's Child Nichelle Nichols, 1995 In the 21st Century a starship from Earth makes mankind's first contact with an alien race They are the methane breathing Fazisians who have powers of telepathy A romance develops between the son of the Fazisian ruler and the woman commanding the starship and the pair attempts to have a child
