Altruistic Reveries is a unique volume which arises out of an Interdisciplinary Conference on Perspectives on Altruism from the Humanities and Social Sciences organized by the Centre for Advanced Studies Faculty of Arts and Social Sciences National University of Singapore in October 1999 Altruism is a deep multi faceted phenomenon of great interest and relevance to scholars across the entire range of disciplines in the Humanities and Social Sciences The Centre therefore brought together experts in diverse disciplines Philosophy Literature Psychology Sociology Economics and Political science to examine and discuss the significance and role of altruism from their respective perspectives A total of 10 papers in all were presented and the volume is completed by an Introduction by the editors and a final Concluding Chapter by one of the editors Among the issues discussed are the efficacy of motivational altruism in the resolution of public issues the genetic origins of altruism and its attendant risks the metaphysical basis of altruism empathy and altruism altruism or social exchange altruism in wartime and the welfare state A notable feature of the volume is that the various authors have not talked past one another Although each is a specialist in his field the papers are accessible to those in other fields and to non specialists Both individually and together they provide a rich set of insights and perspectives on altruism as a fundamental human and social phenomenon which will edify interest and stimulate all readers of the volume

Tropes of Politics John S. Nelson, 1998-04-15 Talk is of central importance to politics of almost every kind it s no accident that when the ancient Greeks first attempted to examine politics systematically they developed the study of rhetoric In Tropes of Politics John Nelson applies rhetorical analysis first to political theory and then to politics in practice He offers a full and deep critical examination of political science and political theory as fields of study and then undertakes a series of creative examinations of political rhetoric including a deconstruction of deliberation and debate by the U S Senate prior to the Gulf War Using the neglected arts of argument refined by the rhetoric of inquiry Nelson traces how everyday

words like consent and debate construct politics in much the same way that poets such as Mamet and Shakespeare construct plays and he shows how we are remaking our politics even as we speak Tropes of Politics explores how politicians take stands and political scientists probe representation how experts become informed even as citizens become authorities how students actually reinvent government while professors merely model politics how senators wage war yet keep comity among themselves The action Nelson shows is in the tropes these figures of speech and images of deed can persuade us to turn from ideologies like liberalism toward spectacles about democracy or movements into environmentalism and feminism His argument is that inventive attention to tropes can mean better participation in politics And the argument is in the tropes evidence itself as sights or citations governments as machines or men politics as hardball or softball deliberations as freedoms or constraints borders as fringes or friends Handbook of Political Science Fred I. Greenstein, Nelson W. Polsby, 1975 *Law Books, 1876-1981* R.R. Bowker Company, 1981 Books in Series , 1979 **Teaching Political Science** Vernon Van Dyke, 1977 *1975 Annual Supplement* George W. Johnson, 1976-01-05 **Community and Alienation** Douglas Sturm, 1988 Douglas Sturm a major ethical thinker here presents ten intriguing essays that lay the groundwork for a communitarian political theory Drawing on the work of Alfred North Whitehead and Bernard E Meland Sturm brings the implications of process thought especially its principle of internal relations to bear on the interpretation and evaluation of our social and political life He argues that American individualism including its curious transmutations into the forms of corporativism racism and nationalism is a constraint that deprives us of a deeper more complex understanding of ourselves and a richer sense of the goodness of our lives The essays contrast a communitarian political theory with alternative traditions of social thought particularly those forms of individualism generated by Hobbes Locke and Bentham Political realities of power rights and interests are not to be dismissed according to Sturm but they need to be cast within a concept of politics that sustains a community as a whole thus public good and justice are defined as the central principles of public life He isolates alternative theoretical perspectives and demonstrates how they deal with several current social and political dilemmas Sturm applies the principles of the communitarian political theory to a broad range of contemporary concerns the character and legitimacy of the modern business corporation the idea of democratic capitalism legal realism as the prevailing jurisprudence of the practicing lawyer the scope and focus of bioethics as a discipline In doing so he affirms both the inescapability of public life in our existence and the radical character of the evil that it often creates **Saving Appearances** Henry S. Kariel, 1972 **The National Union Catalogs, 1963- , 1964**
