Saving The Heart The Battle To Conquer Coronary Disease:

An Informal History of American Medicine from the Colonial Era through the 20th Century Curtis E.

Margo,2023-04-26 American medicine defies simple characterization Its history is filled with as much triumph as controversy which may explain why the delivery of health care in America is described as both the best and the worst of any industrialized country in the world This book examines the convoluted course of medical practice in America from its roots in rural colonial society to the end of the 20th century This story is chronicled through narratives of major events famous individuals and professional organizations and institutions Unlike most historical treatises on medicine the stories in this book evenly explore accomplishment and misadventure In many ways mishap and calamity have done more to steer American medicine to its current position than the exploitation of science and technology The diversity of medical practice from the conflict over smallpox inoculation and the building of the Mayo Clinic to the disgrace of the Tuskegee affair are brought to life in 26 chapters These narratives also place in perspective the conflicting tenets of American medicine humanitarianism and commercialism

Artificial Hearts Shelley McKellar,2018-01-01 A comprehensive history of the development of artificial hearts in the United States Artificial hearts are seductive devices Their promissory nature as a cure for heart failure aligned neatly with the twentieth century American medical community s view of the body as an entity of replacement parts In Artificial Hearts Shelley McKellar traces the controversial history of this imperfect technology beginning in the 1950s and leading up to the present day McKellar profiles generations of researchers and devices as she traces the heart s development and clinical use She situates the events of Dr Michael DeBakey and Dr Denton Cooley s professional fall out after the first artificial heart implant case in 1969 as well as the 1982 83 Jarvik 7 heart implant case of Barney Clark within a larger historical trajectory She explores how some individuals like former US Vice President Dick Cheney affected the public profile of this technology by choosing to be implanted with artificial hearts Finally she explains the varied physical experiences both negative and positive of numerous artificial heart recipients McKellar argues that desirability rather than the feasibility or practicality of artificial hearts drove the invention of the device Technical challenges and unsettling clinical experiences produced an ambivalence toward its continued development by many researchers clinicians politicians bioethicists and the public But the potential and promise of the artificial heart offset this ambivalence influencing how success was characterized and by whom Packed with larger than life characters from dedicated and ardent scientists to feuding Texas surgeons and brave patients this book is a fascinating case study that speaks to questions of expectations limitations and uncertainty in a high technology medical world

On Having a Heart Attack William O'Rourke,2006 That was October 26 1991 in what became a singularly awful day
 in the life of William O'Rourke Minutes later at the beginning of a Notre Dame football game he began to suffer his heart
 attack O'Rourke's account of that day and everything that followed is personal informative humorous and highly literate With
 its extended description of what an MI feels like and how people around the patient react his memoir provides a bedside view
 of his experience and all of the emotions both extraordinary and quotidian that accompanied it What is startling is how that
 momentous event the heart attack divides life irretrievably into a before and after Gone are the assumptions of what is safe
 and healthy replacing them is a newly forged relation of mind and body a treacherous one which breeds a physical paranoia
 that only lessens after months **Patterns** ,2000 **Cassette Books** Library of Congress. National Library Service for the
