Saxon Shore A Handbook:

Die Regionen des Reiches Claude Lepelley, 2012-06-11 Mit diesem Buch liegt zum ersten Mal eine neu verfa te strukturelle Darstellung der Geschichte des r mischen Reiches in deutscher Sprache vor Nicht nur f r den Althistoriker ist dieses Buch unentbehrlich Auch der Philologe den der mentalit tsgeschichtliche Hintergrund der augusteischen Dichtung interessiert wird es nicht missen wollen Befa t sich der Band I mit den Strukturen im Sinne von Staatsreich Religion Heerwesen Verwaltung der Provinzen Gesellschaft und Wirtschaft in Rom und den Provinzen so widmet sich der Band II den Regionen des Reiches **Handbook to Dover** Sebastian Evans, 1899 Carausius and Allectus P J Casey, 2005-11-03 This extraordinary episode in the history of Roman Britain has been brilliantly pieced together by John Casey through a painstaking and at times detective like sifting of the literary archaeological and numismatic evidence **War and Warfare in Late Antiquity (2 vols.)** , 2013-08-19 This two volume publication explores the key factors determining the course and outcome of war in Late Antiquity Volume 8 1 includes a detailed review of strategic and tactical issues and eight comprehensive bibliographic essays which provide an overview of the literature In Volume 8 2 thematic papers examine strategy and intelligence fortifications and siege warfare weaponry and equipment literary sources and topography and civil war while papers focused on particular geographic regions home in on war and warfare in the West Roman Empire in the 4th and 5th centuries and the Balkans and the Eastern frontier in the 4th to 7th centuries AD Contributors are Susannah Belcher Neil Christie Ian Colvin John Conyard Jon Coulston Jim Crow Florin Curta Hugh Elton James Howard Johnston Jordi Galbany Jordi Gu rdia John Haldon Michel Kazanski Maria Kouroumali Michael Kulikowski Christopher Lillington Martin Marta Maragall Oriol Mercadal Jordi Nadal Oriol Olesti Alexander Sarantis Conor Whately Michael Whitby and John Wilkes **Handbook for Travellers in Kent** , 1877 **Tourists' guide and handbook to England and Wales** George Washington Bacon, 1886 *A Portrait of Roman Britain* John Wachter, 2013-12-19 The Romans occupied Britain for almost four hundred years and their influence is still all around us in the shape of individual monuments such as Hadrians Wall the palace at Fishbourne and the spa complex at Bath as well as in subtler things such as the layout and locations of ancient towns such as London Canterbury and Colchester and the routes of many major roads Yet this evidence can only suggest a small proportion of the effect that the Romans had on the landscape of Britain *A Portrait of Roman Britain* breaks new ground in enabling us to visualise the changes in town and countryside brought by Roman military and civilian needs Using clear well documented descriptions John Wachter answers questions such as were Roman towns as neat and tidy as they are often represented how much woodland was needed to fuel the bath houses of Roman Britain how much land did a Roman cavalry regiment require for its horses On the Ocean Barry Cunliffe, 2017-09-29 For humans the sea is and always has been an alien environment Ever moving and ever changing in mood it is a place without time in contrast to the land which is fixed and scarred by human activity giving it a visible history While the land is familiar even reassuring the sea is unknown

and threatening By taking to the sea humans put themselves at its mercy It has often been perceived to be an alien power teasing and cajoling The sea may give but it takes Why then did humans become seafarers Part of the answer is that we are conditioned by our genetics to be acquisitive animals we like to acquire rare materials and we are eager for esoteric knowledge and society rewards us well for both Looking out to sea most will be curious as to what is out there a mysterious island perhaps but what lies beyond Our innate inquisitiveness drives us to explore Barry Cunliffe looks at the development of seafaring on the Mediterranean and the Atlantic two contrasting seas the Mediterranean without a significant tide enclosed and soon to become familiar the Atlantic with its frightening tidal ranges an ocean without end We begin with the Middle Palaeolithic hunter gatherers in the eastern Mediterranean building simple vessels to make their remarkable crossing to Crete and we end in the early years of the sixteenth century with sailors from Spain Portugal and England establishing the limits of the ocean from Labrador to Patagonia The message is that the contest between humans and the sea has been a driving force perhaps the driving force in human history

The Empire Stops Here Philip Parker, 2010-12-07 The Roman Empire was the largest and most enduring of the ancient world From its zenith under Augustus and Trajan in the first century AD to its decline and fall amidst the barbarian invasions of the fifth century the Empire guarded and maintained a frontier that stretched for 5 000 kilometres from Carlisle to Cologne from Augsburg to Antioch and from Aswan to the Atlantic Far from being at the periphery of the Roman world the frontier played a crucial role in making and breaking emperors creating vibrant and astonishingly diverse societies along its course which pulsed with energy while the centre became enfeebled and sluggish This remarkable new book traces the course of those frontiers visiting all its astonishing sites from Hadrian's Wall in the north of Britain to the desert cities of Palmyra and Leptis Magna It tells the fascinating stories of the men and women who lived and fought along it from Alaric the Goth who descended from the Danube to sack Rome in 410 to Zenobia the desert queen who almost snatched the entire eastern provinces from Rome in the third century It is at their edges in time and geographical extent that societies reveal their true nature constantly seeking to recreate and renew themselves In this examination of the places that the mighty Roman Empire stopped expanding Philip Parker reveals how and why the Empire endured for so long as well as describing the rich and complex architectural and cultural legacy which it has bequeathed to us

Maxfield, 1989-01-01 This volume presents a summary of the latest state of knowledge of each of the ten forts that originally girdled the south eastern corner of England from Brancaster on the Wash to Portchester on Portsmouth Harbour

The Archaeology of Kent to AD 800 John H. Williams, 2007 Kent's proximity to the European mainland has meant that it has always had a special relationship with its continental neighbours At times this has been a positive force with Kent a conduit for trade and new ideas but on other occasions the white cliffs of Dover have symbolised defiance with Kent being in the front line in the defence of England The result has been an extremely rich archaeological heritage from Palaeolithic times onwards The opening up of the Channel Tunnel and the construction of the associated high speed railway line linking England and France together with major development activity associated with an agenda for regeneration and economic growth has resulted in unprecedented archaeological activity which has revolutionised our understanding of Kent's earlier past The contributors to this volume all of whom have specialist research interests in Kent have combined established wisdom with the fresh information from recent work to create a new and exciting story Contributors TIMOTHY CHAMPION MARTIN MILLETT MARTIN WELCH AND FRANCIS WENBAN SMITH
