It's complicated Marcello Peluso, 2013-04-21 In the new Internet age Luca a thirty year old man with a precarious professional and love life decides to look for new stimuli in the virtual world of Internet chat To distance himself from the disasters of his real world which consists of uncertainties and much tedium our hero immerses himself in a virtual dimension where he finds friends who are strange but true He gets to know people without being biased by their real world identity from health and from fleeting pleasures until to save a virtual friend suffering from bulimia and in love with an alleged representative of a satanic cult he will be dragged by a hacker friend into an extraordinary adventure which leads him to discover the mysterious link that exists between magic circles IP addresses lunar phases and secret codes to decipher The adventure will give him the chance to complete an internal journey through his fears and to see reality from different angles finally concluding that the world has no set direction only that which each of us decides to attribute to it *South Texas Shaman* Edward C.
