## **Savage Innocence:**

No One to Meet Raphael Falco, 2025-09-15 A groundbreaking appreciation of Dylan as a literary practitioner WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE The literary establishment tends to regard Bob Dylan as an intriguing if baffling outsider That changed overnight when Dylan was awarded the 2016 Nobel Prize in Literature challenging us to think of him as an integral part of our national and international literary heritage No One to Meet Imitation and Originality in the Songs of Bob Dylan places Dylan the artist within a long tradition of literary production and offers an innovative way to understand his unique and often controversial methods of composition Dylan expert Raphael Falco traces the similarities between the way Dylan borrows digests and transforms traditional songs and what Renaissance writers called imitatio Although Dylan s lyrical postures may suggest an avant garde consciousness No One to Meet shows that Dylan s creative process creatively expands methods used by classical and Renaissance authors Drawing on numerous examples including Dylan s previously unseen manuscript excerpts and archival materials Raphael Falco illuminates how the ancient process of poetic imitation handed down from Greco Roman antiquity allows us to make sense of Dylan s musical and lyrical technique By placing Dylan firmly in the context of an age old poetic practice No One to Meet deepens our appreciation of Dylan s songs and allows us to celebrate him as what he truly is a great writer **The Dawn of Everything** David

Graeber, David Wengrow, 2021-11-09 INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history challenging our most fundamental assumptions about social evolution from the development of agriculture and cities to the origins of the state democracy and inequality and revealing new possibilities for human emancipation For generations our remote ancestors have been cast as primitive and childlike either free and equal innocents or thuggish and warlike Civilization we are told could be achieved only by sacrificing those original freedoms or alternatively by taming our baser instincts David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals Revisiting this encounter has startling implications for how we make sense of human history today including the origins of farming property cities democracy slavery and civilization itself Drawing on pathbreaking research in archaeology and anthropology the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what s really there If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter gatherers what were they doing all that time If agriculture and cities did not mean a plunge into hierarchy and domination then what kinds of social and economic organization did they lead to The answers are often unexpected and suggest that the course of human history may be less set in stone and more full of playful hopeful possibilities than we tend to assume The Dawn of Everything fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom new ways of organizing society This is a monumental book of formidable intellectual range animated by curiosity
