

QUICK GUIDE TO ENERGY SAVING

Turn off lights when leaving rooms and consider changing to eco-friendly bulbs

Unplug electrical appliances that are not being used, including items left on standby mode

Ensure taps are fully turned off when they are finished being used

Only fill up the kettle with what you will be using, to avoid wasting energy re-boiling water

Turn off the air-con when leaving the premises

If possible, walk or cycle your daily commute, reducing pollution and also saving money on fuel

In colder weather, keep windows closed to prevent heat escaping

Save Energy Save Money Simple Steps To Stash Your Energy Use And Costs:

Take the POWER back! Emmanuel Fragnière, George Sullivan, Loïc Viret, 2026-01-22 Take the Power Back is a practical and inspiring guide for anyone ready to rethink energy including individuals communities companies and institutions At a time of rising energy costs climate uncertainty and ageing infrastructure this book presents a clear choice remain dependent on centralised systems or take action to establish clean resilient locally managed microgrids Microgrids are more than just technical solutions they re opportunities They enable communities to generate store and manage their own energy thereby reducing their exposure to price volatility and their dependence on fossil fuels They offer environmental benefits economic resilience and the chance to solve local problems with local solutions This handbook explores the why and how of microgrids from residential rooftops to community scale systems It covers essential components such as solar panels batteries smart meters and control systems as well as governance regulation and financial models Whether through turnkey providers or community owned systems microgrids are both achievable and adaptable However this is also a story of empowerment The book highlights the rise of the prosumer citizens who produce and manage their own energy and the role of community engagement in shaping a sustainable future With real world examples and practical advice Take the Power Back

demonstrates that energy autonomy is possible and within reach We have a choice We can act Together we can build energy systems that are cleaner smarter and fairer **Reinventing Fire** Amory Lovins, 2013-09-11 Oil and coal have built our civilisation created our wealth and enriched the lives of billions Yet their rising costs to our security economy health and environment are starting to outweigh their benefits Moreover the tipping point where alternatives work better and compete purely on cost is not decades in the future it is here and now And that tipping point has become the fulcrum of economic transformation In Reinventing Fire Amory Lovins and the Rocky Mountain Institute offer a new vision to revitalise business models and win the clean energy race not forced by public policy but led by business for long term advantage This independent and rigorous account offers market based solutions integrating transportation buildings industry and electricity It maps pathways for running a 158% bigger US economy in 2050 but needing no oil no coal no nuclear energy one third less natural gas and no new inventions This transition would cost 5 trillion less than business as usual without counting fossil fuels huge hidden costs Whether you care most about profits and jobs or national security or environmental stewardship climate and health Reinventing Fire makes sense It s a story of astounding opportunities for creating the new energy era
