United States. Supreme Court

Saving The Constitution From The Courts:

How to Save a Constitutional Democracy Tom Ginsburg, Aziz Z. Hug, 2018-10-05 We can t afford to be complacent any more A formidable book extremely rich in historical examples case studies and quantitative data International Journal of Constitutional Law Democracies are in danger Around the world a wave of populist leaders threatens to erode the core structures of democratic self rule In the United States the tenure of Donald Trump marks a decisive turning point for many What kind of president intimidates jurors calls the news media the enemy of the American people and seeks foreign assistance investigating domestic political rivals Many think the Constitution will safeguard us from lasting damage But is that assumption justified Drawing on an array of other countries experiences Tom Ginsburg and Aziz Z Hug show how constitutional rules can both hinder and hasten the decline of democratic institutions. The checks and balances of the federal government a robust civil society and media and individual rights such as those enshrined in the First Amendment often fail as bulwarks against democratic decline The sobering reality they contend is that the US Constitution's design makes democratic erosion more not less likely Its structural rigidity has had unforeseen consequence leaving the presidency weakly regulated and empowering the Supreme Court to conjure up doctrines that ultimately facilitate rather than inhibit rights violations Even the bright spots in the Constitution the First Amendment for example may have perverse consequences in the hands of a deft communicator who can degrade the public sphere by wielding hateful language banned in many other democracies We and the rest of the world can do better and the authors conclude by laying out practical steps for how laws and constitutional design can play a more positive role in managing the risk This book makes a huge contribution to our understanding of how democracies erode and what institutional reforms would make it harder for authoritarian populists to entrench their power Yascha Mounk author of The People vs Democracy Whereas other recent books on the crisis of American democracy focus on what has gone wrong Ginsburg and Huq provide us with clear eyed proposals including some bold constitutional reforms for how to fix it Steven Levitsky New York Times bestselling coauthor of How Democracies Die

Reports of Cases Heard and Determined by the Supreme Court of South Carolina South Carolina. Supreme Court, J. S. G. Richardson, Robert Wallace Shand, Cyprian Melanchthon Efird, William Hay Townsend, Duncan C. Ray, William Munro Shand, 1897 Saving the Constitution from the Courts William Gangi, 1995 In Roosevelt's New Deal days the threat from the Court was the judges attempt to run the nation's economy Now as the limits of individual freedoms are increasingly unrestrained Gangi sees a parallel but perhaps more fundamental peril. He challenges the reader to pick up any newspaper and find in it judges telling lawmakers what to do and how to do it Gangi does not doubt the good will of the reformers in the short term recent expansions of rights are beneficial But he argues abuse of judicial power is eroding a more basic American freedom the people's right to self government Gangi is concerned that present justices no longer understand American structures as set up by the framers of the Constitution and he gives an exhaustive summary of The Federalist Papers a classic

defense of the original document written by Hamilton Jay and Madison under the pen name Publius Conservatives and liberals alike are guilty he says Recent Supreme Courts are an embarrassment to the American political tradition Troubled by the shadow of a new tyranny the author does not pull his punches Where he sees bias masquerading in legal garb he names it and he urges activists to stop the unseemly scurrying to the courts every time a public policy battle is lost Gangi concludes that if Americans are to regain control of their government they must first rediscover their faith in democracy Not everyone will agree with the views espoused in this provocative book but all who read it will understand a great deal better the critical issues with which it deals BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved

Debates and Proceedings of the Constitutional Convention of the State of The Public General Acts ,1893 **Illinois** Illinois. Constitutional Convention, 1870 Constitutionalism Alejandro Linares Cantillo, Camilo Valdivieso-León, Santiago García-Jaramillo, 2021 This compilation of twenty essays gathers some of the most prominent authors in constitutionalism and legal theory to critically examine classical debates such as the role of judicial review in a democracy the enforcement of socio economic rights the doctrine of unconstitutional amendments and the theory of Reports of Cases Argued and Decided in the Supreme Court of the United States United transitional justice A Digest of the Decisions of the Courts of Last Resort of the Several States, from the Earliest States.
