Saving the Planet Without the Bullsh*t Assaad Razzouk, 2022-09-01 Fast paced and energetic Financial Times Punchy provocative and wonderfully readable David Shukman Eye popping and essential Rowan Hooper A must read Peter Stott Have you heard that you should plant trees to save the planet Or buy carbon offsets when you fly Or recycle plastic Go vegan Or not have children What if all these actions were a distraction no matter how well intentioned In this provocative manifesto Assaad Razzouk shows that for too long our ideas about what's best for the environment have been unfocused and distracted trying to go in too many directions and concentrating on individual behaviour While some of these things can be useful they are dwarfed by one big thing that simply has to happen very soon if we're to avoid major environmental breakdown curtailing the activities of the fossil fuel industry Full of counter intuitive statistics and positive suggestions for individual and collective action this ingenious book will change how you view the climate crisis [Saving Earth](#) Olugbemisola
